The Social Condition of Deaf People Sara Trovato, Anna Folchi, 2022-05-09 This book is about the social condition of Deaf people told through a Deaf woman's autobiography and a series of essays investigating how hearing societies relate to Deaf people Michel Foucault described the powerful one as the beholder who is not seen This is why a Deaf woman's perspective is important Minorities that we don't even suspect we have power over observe us in turn Majorities exert power over minorities by influencing the environment and institutions that simplify or hinder lives language mindsets representations norms the use of professional power Based on data collected by Eurostat this volume provides the first discussion of statistics on the condition of Deaf people in a series of European countries concerning education labor gender This creates a new opportunity to discuss inequalities on the basis of data The case studies in this volume reconstruct untold moments of great advancement in Deaf history successful didactics supporting bilingualism the reasons why Deaf empowerment for and by Deaf people does and does not succeed A work of empowerment is effective if it acts on a double level the community to be empowered and society at large resulting in a transformation of society as a whole This book provides instruments to work towards such a transformation

Les sourds Charles Gaucher, Stéphane Vibert, 2010 L'ouvrage réunit des présentations faites en mai 2007 dans le cadre du congrès de l'ACFAS et des textes issus d'un appel communications ayant suivi cette rencontre d'experts qui ont réfléchi sur l'évolution la mise en place et le déploiement de l'identité sourde

The Legal Recognition of Sign Languages Maartje De Meulder, Joseph J. Murray, Rachel L. Critical Perspectives on Plurilingualism in Deaf Education Kristin Snoddon, Joanne C. Weber, 2021-07-12 This book is the first edited international volume focused on critical perspectives on plurilingualism in deaf education which encompasses education in and out of schools and across the lifespan The book provides a critical overview and snapshot of the use of sign languages in education for deaf children today and explores contemporary issues in education for deaf children such as bimodal bilingualism

translanguaging teacher education sign language interpreting and parent sign language learning The research presented in this book marks a significant development in understanding deaf children s language use and provides insights into the flexibility and pragmatism of young deaf people and their families communicative practices It incorporates the views of young deaf people and their parents regarding their language use that are rarely visible in the research to date Sign Languages of the World Julie Bakken Jepsen,Goedele De Clerck,Sam Lutalo-Kiingi,William B. McGregor,2015-10-16 Although a number of edited collections deal with either the languages of the world or the languages of particular regions or genetic families only a few cover sign languages or even include a substantial amount of information on them This handbook provides information on some 38 sign languages including basic facts about each of the languages structural aspects history and culture of the Deaf communities and history of research This information will be of interest not just to general audiences including those who are deaf but also to linguists and students of linguistics By providing information on sign languages in a manner accessible to a less specialist audience this volume fills an important gap in the literature The Language of Light Gerald Shea,2017-01-01 A comprehensive history of deafness signed languages and the unresolved struggles of the Deaf to be taught in their unspoken tongue Partially deaf due to a childhood illness Gerald Shea is no stranger to the search for communicative grace and clarity In this eloquent and thoroughly researched book he uncovers the centuries long struggle of the Deaf to be taught in sign language the only language that renders them complete fully communicative human beings Shea explores the history of the deeply biased attitudes toward the Deaf in Europe and America which illogically forced them to be taught in a language they could neither hear nor speak As even A G Bell a fervent oralist admitted sign language is the quickest method of reaching the mind of a deaf child Shea s research exposes a persistent but misguided determination among hearing educators to teach the Deaf orally making the very faculty they lacked the principal instrument of their instruction To forbid their education in sign language the language of light is to deny the Deaf their human rights he concludes **The Repairable and the Irreparable** Johann Michel,2022-12-19 Since the mid twentieth century Western societies have seen an unprecedented increase in movements demands and policies in favor of reparations The historical catastrophes that shook the last century are both the immediate origin of this groundswell and its founding paradigm The Repairable and the Irreparable Being Human in the Age of Vulnerability places reparation within a wider contemporary context and describes it in its full anthropological depth Repair is a global phenomenon that does not present itself in a unified way Ideas of repair and reparation are expressed at different levels for instance one can mend a damaged object heal a wound redress an injury or make amends for an offence Johann Michel explores how repair and reparation tell us about human beings natural vulnerability our moral fallibility and our social incompleteness but also about the many capabilities we draw upon to mitigate these shortcomings It is from the heart of human finitude that repair and reparation draw meaning and the irreparable whether due to time or to a debt that can never be repaid haunt any policy of reparation Such are the

challenges to be addressed by a philosophy of repair and reparation constructed in renewed dialogue with the social sciences

Introduction à la sociologie du handicap Alexandre Dézé, Isabelle Ville, Tom Shakespeare, Gary L. Albrecht, Yohann Aucante, Emmanuelle Fillion, Jean-François Ravaud, 2020-09-09. Proposant un panorama clair et synthétique des études consacrées au handicap, ce livre souligne la fois les situations concrètes qu'il recouvre et ses enjeux politiques et sociaux. Il pose ainsi les bases d'une meilleure prise en considération des personnes handicapées et des questions contemporaines liées au handicap. Comment le champ du handicap s'est-il historiquement et socialement construit dans les sociétés occidentales ? Quel type d'expériences le handicap produit-il ? Quelles mobilisations suscite-t-il ? Quel type de recherches et quels courants de pensées recouvrent les disability studies ? Quels traitements politiques les sociétés donnent-elles aux personnes dites handicapées ? Comment celles-ci vivent-elles aujourd'hui ? Le rôle au travail, en famille, en milieu ordinaire ou en institutions spécialisées. Voici quelques-unes des nombreuses questions que se posent tous ceux qui s'intéressent au handicap et que cet ouvrage propose de clarifier. Depuis une quarantaine d'années, le handicap est en effet devenu un objet d'études partiellement des sciences humaines et sociales, de la sociologie en particulier. Les recherches ont permis de mieux comprendre l'objet socio-politique handicap et d'en cerner les contours instables. Mais elles ont aussi ouvert de nouvelles pistes et catégories d'analyse pour penser nos sociétés contemporaines. La preuve de la diversité. Elles montrent que la fonctionnalité des corps et des esprits touche au cœur des questions de justice sociale. Ce manuel propose un panorama clair et synthétique des études consacrées au handicap en soulignant la fois les situations concrètes qu'il recouvre et ses enjeux politiques et sociaux. Pour les étudiants, chercheurs et enseignants en sociologie, anthropologie, sciences sociales, santé publique et ceux des professions paramédicales et médico-sociales.

Translatio y Cultura Pedro Aullón de Haro, 2015. El presente volumen Translatio y Cultura forma parte de un ambicioso proyecto de investigación Translatio promovido por los responsables de la facultad de Lingüística Aplicada de la Universidad de Varsovia. Se trata tomando un concepto muy amplio y polidrico de traducir de afrontar sucesivamente aspectos relevantes de su posibilidad múltiple y miscelánea. El diseño viene también a recuperar así un modo convincente de la tradicional miscelánea filológica dentro de los límites de un cierto monografismo liberalmente abierta a las inclinaciones y actividades diversas de los estudiosos. Esto que define una metodología como actuación también constituye un modo de encuesta y representación de la que hay y es imprescindible sondear y tomar en cuenta. El fenómeno de la traducción es sin duda clave portensora de la cultura y la humanidad, pues encierra la entidad y el saber misterioso de lo esencial al ser humano que es el lenguaje a lo cual se añade el prodigio traslativo de su asimilación intrínseca multiplicadora o sobreposición entre las diversas manifestaciones concretas del mismo: las lenguas naturales próximas y lejanas. El hecho es que la cuestión del ser del lenguaje se halla ahí comprometida.

al igual que en consecuencia la cuestión b blica o religiosa la cuestión art stica y literaria la cuestión filol gica como tantas otras pero que en ning n momento han de hacer olvidar a esas esenciales Sea como fuere el concepto de Cultura as lo exige
