**Vocabulary:** daughter atom, decay, Geiger counter, half-life, isotope, neutron, radiation, radioactive, radiometric dating

**Prior Knowledge Questions** (Do these BEFORE using the Gizmo.)

1. Have you ever made microwave popcorn? If so, what do you hear while the popcorn is in the microwave? \_\_\_\_\_  
\_\_\_\_\_
2. If you turn the microwave on for two minutes, is the rate of popping always the same, or does it change? Explain. \_\_\_\_\_  
\_\_\_\_\_

### Gizmo Warm-up

Like an unpopped kernel in the microwave, a **radioactive** atom can change at any time. Radioactive atoms change by emitting **radiation** in the form of tiny particles and/or energy. This process, called **decay**, causes the radioactive atom to change into a stable **daughter atom**.

The *Half-life Gizmo™* allows you to observe and measure the decay of a radioactive substance. Be sure the sound is turned on and click **Play** (▶).

1. What do you see and hear? \_\_\_\_\_  
\_\_\_\_\_

**Note:** The clicking sound you hear comes from a **Geiger counter**, an instrument that detects the particles and energy emitted by decaying radioactive atoms.

2. What remains at the end of the decay process? \_\_\_\_\_
3. Is the rate of decay fastest at the beginning, middle, or end of the process? \_\_\_\_\_

**Exploring Virginia Through Project-Based Learning** Carole Marsh,2016-04-01 Exploring Virginia through Project

Based Learning includes 50 well thought out projects designed for grades 3-5. In assigning your students projects that dig into Virginia's geography, history, government, economy, current events, and famous people, you will deepen their appreciation and understanding of Virginia while simultaneously improving their analytical skills and ability to recognize patterns and big picture themes. Project-based learning today is much different than the craft-heavy classroom activities popular in the past. Inquiry, planning, research, collaboration, and analysis are key components of project-based learning activities today. However, that doesn't mean creativity, individual expression, and fun are out. They definitely aren't. Each project is designed to help students gain important knowledge and skills that are derived from standards and key concepts at the heart of academic subject areas. Students are asked to analyze and solve problems, to gather and interpret data to develop and evaluate solutions to support their answers with evidence, to think critically in a sustained way, and to use their newfound knowledge to formulate new questions worthy of exploring. While some projects are more complex and take longer than others, they all are set up in the same structure. Each begins with the central project driving questions, proceeds through research and supportive questions, has the student choose a presentation option, and ends with a broader view inquiry. Rubrics for reflection and assessments are included, too. This consistent framework will make it easier for you to assign projects and for your students to follow along and consistently meet expectations. Encourage your students to take charge of their projects as much as possible. As a teacher, you can act as a facilitator and guide. The projects are structured such that students can often work through the process on their own or through cooperation with their classmates.

revelation and that is an attack method that has been killing us for thousands of years We will together contemplate the mysterious of the word of God and unlock the doors to revelation to be able to add power to our walk in Christ Jesus We will be breaking passed down religion from our mothers and grandmothers and fathers and grandfathers and take a close examination of the word of God This will reveal unto us our hidden agenda as well as the deep penetration of the enemy in our lives We will look at Character Defects as well as Blessings and What is the Body of Christ and Method of Attack from the enemy as well as defensive measures for us We will take a deep look within the true essence of the word of God and seek out the principle that will set us free from the devices used by the enemy We will also look at Sin and Lust which in those sections will reveal some hidden keys that will unlock some false embedded information that our foundation was build on and that is slowly destroying the righteous part of the foundation So I know that this particular book will be a blessing to you as well as it was to me so I look forward to interacting with you on another elevation in the body of Christ Jesus As we grow together we gain strength so together we are a strong front of an unbreakable force to be a mighty army of God Remember we seek revelation not interpretation of God s word God bless and enjoy     Psychology and the Challenges of Life Jeffrey S. Nevid, Spencer A. Rathus, 2016-01-11 This text is an unbound three hole punched version In the 13th edition of Psychology and the Challenges of Life Adjustment and Growth Binder Ready Version 13th Edition authors Jeffrey Nevid and Spencer Rathus continue to reflect on the many ways in which psychology relates to the lives we live and the important roles that psychology can play in helping us adjust to the many challenges we face in our daily lives Throughout the authors explore applications of psychological concepts and principles in meeting life challenges such as managing our time developing our self identity building and maintaining friendships and intimate relationships adopting healthier behaviors and lifestyles coping with stress and dealing with emotional problems and psychological disorders     **Motor Skills and Their Foundational Role for Perceptual, Social, and Cognitive Development** Klaus Libertus, Petra Hauf, 2017-05-18 Motor skills are a vital part of healthy development and are featured prominently both in physical examinations and in parents baby diaries It has been known for a long time that motor development is critical for children s understanding of the physical and social world Learning occurs through dynamic interactions and exchanges with the physical and the social world and consequently movements of eyes and head arms and legs and the entire body are a critical during learning At birth we start with relatively poorly developed motor skills but soon gain eye and head control learn to reach grasp sit and eventually to crawl and walk on our own The opportunities arising from each of these motor milestones are profound and open new and exciting possibilities for exploration and interactions and learning Consequently several theoretical accounts of child development suggest that growth in cognitive social and perceptual domains are influenced by infants own motor experiences Recently empirical studies have started to unravel the direct impact that motor skills may have on other domains of development This volume is part of this renewed interest and includes reviews of previous findings and recent empirical evidence for

associations between the motor domain and other domains from leading researchers in the field of child development We hope that these articles will stimulate further research on this interesting question
