

BEST LASH STYLE FOR YOUR EYE SHAPE

BEST LASH STYLE FOR YOUR EYE SHAPE

Upturned Eyes

Upturned eyes can be paired with several different eye shapes, the almond shaped eye is the most common. There is a good rule of thumb, if you are going for the dramatic look that you consider that you are toward the outer part of the eye, the more of an over-curl look, try lashes that are not overly across the eye.

Close Set Eyes

Focus on accentuating the outer corner to lift and lengthen the eye. To increase the appearance of width, a natural look style should be used. The look style to help you achieve the lift and lengthen look, use lashes with longer lash lengths from inner to outer, flip, but shorter lashes in the inner corner, tapering to longer lashes toward the outer corner.

Downturned Eyes

For a look that will draw attention to the eye in the first row, the downturned eye is the perfect shape for a dramatic and voluminous eye look. Flaring longer lashes in the outer corner will put the eye a little upturned and more length along the lash line.

Monolid Eyes

Monolid eyes often naturally have straighter lashes, choose a style with more flare for dramatic and length on the outer corner, this will create an illusion of elongated eyes.

Wide Set Eyes

For those with the distance in the inner corner of the eye, choose a look that is not too dramatic. If it is a natural look or a curled look are incorporated, natural look, it's best to avoid "cat eye" lashes, they place the full weight of the eye toward the outer to look too wide.

Round Eyes

For the heavily rounded eye, you want to have a strong curl starting as a look toward the outer corner. Use liner to create a slight effect, a curved eye giving them the illusion of length, lengthen eye, avoid "heavy", this will make the eye more round and closed.

Protruding Eyes

It is best to use "W" or "U" curls as well as using the "cat eye shape". This will make the eye appear longer.

Round Eyes

All shapes and features round, rounded bright eyes. To properly fit in to the features and create a subtle look, voluminous effect, also known as the cat eye effect.

Almond Eyes

Almond Eye shape can carry off any extreme style. Depending on the look and eye giving the eye shape is very versatile and any style will complement your eye shape. (Page 2 of 4)
