Self-Tracking, Health and Medicine Deborah Lupton, 2017-10-02 Self tracking practices are part of many health and medical domains The introduction of digital technologies such as smartphones tablet computers apps social media platforms dedicated patient support sites and wireless devices for medical monitoring has contributed to the expansion of opportunities for people to engage in self tracking of their bodies and health and illness states The contributors to this book cover a range of self tracking techniques contexts and geographical locations fitness tracking using the wearable Fitbit device in the UK English adolescent girls use of health and fitness apps stress and recovery monitoring software and devices in a group of healthy Finns self monitoring by young Australian illicit drug users an Italian diabetes self care program using an app and web based software and show and tell videos uploaded to the Quantified Self website about people s experiences of self tracking Major themes running across the collection include the emphasis on self responsibility and self management on which self tracking rationales and devices tend to rely the biopedagogical function of self tracking teaching people about how to be both healthy and productive biocitizens and the reproduction of social norms and moral meanings concerning health states and embodiment good health can be achieved through self tracking while illness can be avoided or better managed This book was originally published as a special issue of the Health Sociology Review

Practical Guide to Simulation in Delivery Room Emergencies Gilda Cinnella, Renata Beck, Antonio Malvasi, 2023-06-13 In this book the use of hybrid simulation in delivery room emergencies is described and shown The use of a patient actor combined with a task trainer within the same session substantially improve the training for practical management of intrapartum emergencies in real life reducing the risk of failure of operative vaginal delivery and of related adverse events including perinatal or maternal complications

Furthermore simulation with high reality computerized mannequin and scenography of emergency situation can improve technical and manual skills of the participants For this book and the related videos a new generation of mannequins suitable for both clinical manoeuvres and ultrasound examination is used to simulate all clinical scenarios of emergency that can happen in the delivery room for both the mother and the child This unique book is a useful tool for medical students residents practicing pediatricians anesthetists obstetricians and all health care professionals working in the delivery room in their ability to deal with critical and emergency situations with safety and good medical practice

Physical Activity: a Promising Modifiable Behavior to Protect Brain, Cognition, and Mental Health Across the Lifespan María Rodríguez-Ayllon, Yaira Barranco-Ruiz, Jose Mora-Gonzalez, Darío Bellón, 2025-08-20 Physical activity a promising modifiable behavior to protect brain cognition and mental health across the lifespan Levels of physical activity are alarmingly low around the world This is an ominous trend as numerous studies support the importance of engaging in physical activity for

improving and or maintaining a good health status across the lifespan An emerging field of research also highlights the positive effect of physical activity on brain health in particular for the promotion of cognitive functioning across the lifespan and the prevention of mental disorders in later life According to the World Health Organization WHO brain health can be defined as the state of brain functioning across cognitive sensory social emotional behavioral and motor domains allowing a person to realize their full potential over the life course irrespective of the presence or absence of disorders Therefore the concept of brain health includes not only measurements of biological markers of the brain e g structural brain morphology but also psychological ill being e g depressive symptoms and well being e g self esteem indicators perceptions of quality of life and cognitive function e g attention and memory

Official (ISC)2 Guide to the HCISPP CBK

Steven Hernandez,2018-11-14 HealthCare Information Security and Privacy Practitioners HCISPPSM are the frontline defense for protecting patient information These are the practitioners whose foundational knowledge and experience unite healthcare information security and privacy best practices and techniques under one credential to protect organizations and sensitive patient data against emerging threats and breaches The Official ISC 2 R Guide to the HCISPPSM CBK R is a comprehensive resource that provides an in depth look at the six domains of the HCISPP Common Body of Knowledge CBK

This guide covers the diversity of the healthcare industry the types of technologies and information flows that require various levels of protection and the exchange of healthcare information within the industry including relevant regulatory compliance and legal requirements Numerous illustrated examples and tables are included that illustrate key concepts frameworks and real life scenarios Endorsed by the ISC 2 and compiled and reviewed by HCISPPs and ISC 2 members this book brings together a global and thorough perspective on healthcare information security and privacy Utilize this book as your fundamental study tool in preparation for the HCISPP certification exam **The Diary** Batsheva Ben-Amos, Dan Ben-Amos, 2020-03-10

The diary as a genre is found in all literate societies and these autobiographical accounts are written by persons of all ranks and positions The Diary offers an exploration of the form in its social historical and cultural literary contexts with its own distinctive features poetics and rhetoric The contributors to this volume examine theories and interpretations relating to writing and studying diaries the formation of diary canons in the United Kingdom France United States and Brazil and the ways in which handwritten diaries are transformed through processes of publication and digitization The authors also explore different diary formats including the travel diary the private diary conflict diaries written during periods of crisis and the diaries of the digital era such as blogs The Diary offers a comprehensive overview of the genre synthesizing decades of interdisciplinary study to enrich our understanding of research about and engagement with the diary as literary form and historical documentation *Adsensory Financialisation* Pamela Odih, 2016-09-23

Adsensory technology presupposes a neoliberal entrepreneurial self as an integral feature of its biopolitical financialisation of healthcare regimes According to Michel Foucault neoliberalism is indebted to the endeavour of its self disciplined subjects investing human capital in a self regulated entrepreneurial pursuit of responsible healthcare and well being Primarily informed by social network analytics and virtual ethnographic observations this book identifies the biopolitical basis of adsensory technologies It argues that a paradoxical feature of adsensory technologies dissimulating that there is nothing Jean Baudrillard is the proliferation of risk This is because the dissimulation of nothing opens up the possibility that everything can be a risk in so far as the type of event it falls under can be treated according to the principles of insurance technology Francois Ewald Adsensory wearable technologies are called upon as a strategy of deterrence Jean Baudrillard to indemnify capitalism s production of signs which dissimulate their simulation In a context in which much that was certain now feigns its own existence the insurance professed by adsensory technologies provides for an unrealisable guarantee against indefinable unknowable risks Based also on case studies of European Court of Justice personal finance insurance rulings this book engages critically with the neoliberal construct of the entrepreneurial lifestyle insurance subject Social network analytics are utilised here to map bio technology onto neoliberal regimes of financialised well being and healthcare provision In so doing the book situates adsensory technologies within the marketising healthcare management programmes that are currently aligning the neoliberal reengineering of health and well being citizenship with the biopolitical healthcare

financialisation of populations Paradoxically in their endeavour to actor network virtual well being health communities adsensory technologies proliferate the individuating marketised conditions of neoliberal self regulating entrepreneurialism This gives rise to aleatory materialist dialectics of financialised surveillance far exceeding the regulatory time and space modalities of Foucauldian panoptics and Mathiesen synoptics Adsensory technologies are integral to a seismic transformation in the cultural economies of time presently eliding digital advertising and insurantal technologies Axiomatic with the synchronic times of the adsensory technologies valorised by lifestyle insurance much riskier asynchronic embodied times transgressively dissimilating the limits of financialisation are beginning to emerge

Exploring physical activity and sedentary behaviour in physical disability Jennifer Ryan, Claire Kerr, Cherry Bridget Kilbride, Meriel Norris, 2022-12-12

Intelligent Computing Kohei Arai, 2024-06-13 Explore the forefront of computing with the proceedings of the Computing Conference 2024 Featuring 165 carefully selected papers from a pool of 457 submissions this collection encapsulates the cutting edge research and innovation presented during the conference Delve into a diverse range of topics insights and methodologies that shape the future of computing Whether you re an academic researcher or enthusiast this concise volume offers a snapshot of the dynamic and collaborative spirit defining the Computing Conference 2024

Mobile Technologies for Smart Healthcare System Design Xiaonan Guo, Yan Wang, Jerry Cheng, Yingying (Jennifer) Chen, 2024-09-11

This book offers a comprehensive examination of mobile technologies in healthcare It starts by covering wireless solutions including WiFi signals and mmWave technology for activity recognition fitness assistance and eating habit monitoring The discussion extends to wearable technologies that focus on personal fitness and injury prevention highlighting the innovative use of PPG sensors in wearables which enable gesture recognition and user authentication Based on thorough analyses on the challenges of designing robust mobile healthcare systems this book addresses the difficulty of gathering accurate and reliable sensor data amidst the variability of human activities It explores solutions using advanced sensing modalities such as WiFi mmWave and PPG sensors and robust algorithms for feature extraction to interpret activities gestures and biometrics It also tackles system robustness across diverse environments and practical issues such as reducing training efforts handling motion artifacts and the implementation of these systems using commercially available devices The primary audience for this book targets computer science students and researchers working in mobile computing smart healthcare human computer interaction and artificial intelligence machine learning Professionals and consultants focused on advancing mobile based healthcare solutions will want to purchase this book as a reference

Sensing Health Mikki Kressbach, 2024-02-26 In the age of Apple Watches and Fitbits the concept of health emerges through an embodied experience of a digital health device or platform not simply through the biomedical data it provides Sensing Health Bodies Data and Digital Health Technologies analyzes popular digital health technologies as aesthetic experiences to understand how these devices and platforms have impacted the way individuals perceive their bodies behaviors health and well being By tracing design alongside embodied

experiences of digital health Kressbach shows how these technologies aim to quantify track and regulate the body while at the same time producing moments that bring the body's affordances and relationship to the fore This mediated experience of health may offer an alternative to biomedical definitions that define health against illness To capture and analyze digital health experiences Kressbach develops a method that combines descriptive practices from Film and Media Studies and Phenomenology After examining the design and feedback structures of digital health platforms and devices the author uses her own first person accounts to analyze the impact of the technology on her body behaviors and perception of health Across five chapters focused on different categories of digital health menstrual trackers sexual wellness technologies fitness trackers meditation and breathing technologies and posture and running wearables Sensing Health demonstrates a method of analysis that acknowledges and critiques the biomedical structures of digital health technology while remaining attentive to the lived experiences of users Through a focus on the intersection of technological design and experience this method can be used by researchers scholars designers and developers alike

Mission-Oriented Sensor Networks and Systems: Art and Science Habib M. Ammari, 2019-09-18 This book presents a broad range of deep learning applications related to vision natural language processing gene expression arbitrary object recognition driverless cars semantic image segmentation deep visual residual abstraction brain computer interfaces big data processing hierarchical deep learning networks as game playing artefacts using regret matching and building GPU accelerated deep learning frameworks Deep learning an advanced level of machine learning technique that combines class of learning algorithms with the use of many layers of nonlinear units has gained considerable attention in recent times Unlike other books on the market this volume addresses the challenges of deep learning implementation computation time and the complexity of reasoning and modeling different type of data As such it is a valuable and comprehensive resource for engineers researchers graduate students and Ph D scholars

Serious Games Tim Marsh, Minhua Ma, Manuel Fradinho Oliveira, Jannicke Baalsrud Hauge, Stefan Göbel, 2016-09-02 This book constitutes the proceedings of the Second Joint International Conference on Serious Games JCSG 2016 held in Brisbane QLD Australia in September 2016 This conference bundles the activities of the International Conference on Serious Games Development and Applications SGDA and the Conference on Serious Games GameDays The total of 36 full papers and 5 short papers was carefully reviewed and selected from numerous submissions The papers were organized in topical sections named health well being and accessibility education learning and training science nature and heritage design development and analysis poster papers exhibits

Unreal Objects Kate O'Riordan, 2017-07-20 Science and technology are playing increasingly important roles in our lives New projects in development today will fundamentally shape the world around us and manipulate our lived experience But how and why are such important scientific and technological projects chosen and what are the consequences of this process In this book Kate O Riordan answers these crucial question She discovers that many objects such as genomes and genomic projects smart grids de extinction projects and biosensors cannot be granted

scientific legitimacy and developed without extraordinary amounts of media public relations celebrity endorsements and private investment As a result of these filters only certain projects take centre stage when it comes to funding and political attention O Riordan calls these unreal objects scientific projects and technologies where utopian visions for the future are combined with investment and materialisation in the here and now This attention to these unreal objects hides many current social issues especially injustices and inequalities At the same time they conjure utopian visions for how life might be improved
