Rex Stem,2012-11-19 The Roman writer Cornelius Nepos was a friend of Cicero and Catullus and other

first century BCE authors and portions of his encyclopedic work *On Famous Men* are the earliest surviving biographies written in Latin. In *The Political Biographies of Cornelius Nepos*, Rex Stem presents Nepos as a valuable witness to the late Republican era whose biographies share the exemplary republican political perspective of his contemporaries Cicero and Livy. Stem argues that Nepos created the genre of grouped political biographies in order to characterize renowned Mediterranean figures as role models for Roman leaders and he shows how Nepos invested his biographies with moral and political arguments against tyranny. This book, the first to regard Nepos as a serious thinker in his own right, also functions as a general introduction to Nepos, placing him in his cultural context. Stem examines Nepos' contributions to the growth of biography and he defends Nepos from his critics at the same time that he lays out the political significance and literary innovation of Nepos' writings. Accessible to advanced undergraduates, this volume is addressed to a general audience of classicists and ancient historians as well as those broadly interested in biography, historiography, and political thought.

EPIE Materials Report EPIE Institute, 1981 Scaffolding Language Development in Immersion and Dual Language Classrooms Diane J. Tedick, Roy Lyster, 2019-11-28. This book introduces research-based pedagogical practices for supporting and enhancing language development and use in school-based immersion and dual language programs in which a second foreign heritage or indigenous language is used as the medium of subject matter instruction. Using counterbalanced instruction as the volume's pedagogical framework, the authors map out the specific pedagogical skill set and knowledge base that teachers in immersion and dual language classrooms need so their students can engage with content taught through an additional language while continuing to improve their proficiency in that language. To illustrate key concepts and effective practices, the authors draw on classroom-based research and include teacher-created examples of classroom application. The following topics are covered in detail: defining characteristics of immersion and dual language programs and features of well-implemented programs; strategies to promote language and content integration in curricular planning as well as classroom instruction and performance assessment; an instructional model to counterbalance form-focused and content-based instruction; scaffolding strategies that support students' comprehension and production while ensuring continued language development; an approach to creating cross-linguistic connections through biliteracy instruction; a self-assessment tool for teachers to reflect on their pedagogical growth. Also applicable to content and language integrated learning and other forms of content-based language teaching, this comprehensive volume includes graphics to facilitate navigation and provides Resources for Readers and Application Activities at the end of each chapter. The book will be a key resource for preservice and in-service teachers, administrators, and teacher educators.
