Choice Architecture Versus Price Xiaoling Ang, 2016 We show that changes in choice architecture have a large effect on student loan decisions while we do not find significant effects of sizeable interest rate changes We evaluate the effect of two policies implemented in 2010 by the U S Department of Education 1 the requirement that all applicants for private student loans fill out a Self Certification Form which includes various disclosures about federal aid and 2 the prohibition of presenting a private student loan as a default option on a financial aid offer without disclosure of the relationship between the school and the creditor Using difference and difference and matching techniques on a proprietary dataset of private student loan originations from the Consumer Financial Protection Bureau and survey and

administrative data from the Department of Education we show that these changes decreased private student loan originations by 33% at public four year institutions 18% at private not for profit four year institutions and 55% at four year for profit institutions In contrast we find no consumer response when analyzing 60 basis point decrease in the price of federal Parental PLUS loans at some schools using same datasets and similar estimation techniques

Report of the NASFAA Task Force on Student Loan Indebtedness National Association of Student Financial Aid Administrators (NASFAA), 2013 In light of increasing concern about student loans debt levels and rising default rates which coincide with worries about college costs affordability and transparency the National Association of Student Financial Aid Administrators NASFAA convened a task force in 2012 to study this issue and make recommendations for improvement NASFAA s Task Force on Student Indebtedness was charged with examining current trends and making recommendations aimed at improving the system for students and institutions throughout all stages of borrowing including pre borrowing in school and repayment NASFAA s Board of Directors reviewed and approved the eight recommendations featured in this report Taken together these eight recommendations address shortcomings in the current student loan system at each level of borrowing preborrowing in school and repayment They were each designed with the goal of achieving

- 1 More informed borrowers
- 2 More responsible borrowing
- 3 Tools or frameworks for institutions to assist borrowers
- 4 More borrowers successfully repaying their loans and
- 5 Federal and institutional policies that reinforce all of the above

In contrast to the recent loan program changes which arose strictly out of fiscal concerns these recommendations are intended to serve as starting points for meaningful policy discussions surrounding borrowing and student loan reform The hope is that these discussions will lead toward better designed loan programs that serve the needs of today s borrowers as they pursue their educational goals Members of the task force include Chuck Kneple Chair Brenda Brown Chris Christensen Dan Davenport Ron Day Pam Fowler Anna Griswold Rita Grogan Jane Hickey Kevin Jensen Craig Munier David Page Bernie Pekala Tom Sakos Yara Santana Rick Shipman and Joan Zanders
