

PRAYER FOR FLAG RAISING CEREMONY

January 20, 2020

Legislative Department

Our Gracious Heavenly Father. We praise and thank You for calling us to be Your people. We thank You for the times of triumph despite the ongoing challenges, knowing You have been with us always.

Have mercy for our failures, Lord, and make us into a people who will not forget You. Give us the grace to grow in love, service and obedience to Your laws.

We pray for our province - strengthen and defend us in our daily battles. Help us to fight for our province by being good citizens and being part of the solution. Keep safe our families and the Godly values we hold dear.

We pray for our people - that we may grow united in love and appreciation.

May we extend a hand to each other in selfless giving even when we feel we are the ones in need.

We pray for our leaders - give them Your heart and wisdom to govern humbly and justly. Make them worthy examples of righteousness for the whole citizenry to emulate.

We pray that You bless and prosper the fruits of our land and the works of our hands, that all of these may benefit your people in the province.

We claim Your victory in Our land and declare You as God of our province for blessed is the one who calls upon Your name. All of these things we ask, In the mighty name of Your Son, Jesus Christ. Amen.

Mentan,2024-11-29 A convenient veil is drawn over the many issues facing the majority of citizens on a daily basis as a result
of the so called free market One is left with an impression that we live in a glorious utopia in which the crusaders of
international capitalism continue in their quest to make life peaceful and better for all of humanity It is also a world which
has been at peace for 70 years with no ideological or economic conflict and in which all of humanity live their lives in
harmony benefiting from the fruits of globalization This claim is nothing less than the rearrangement of the deck chairs on
the Titanic where the Titanic is actually the Global Economic Financial System GE FS storming its way through all countries
and causing untold human suffering engineered by global pathocrats In this book Professor Tatah Mentan dissects human
suffering from multidimensional crises such as terrorism population explosion denial of human rights economic inequality
racial discrimination ideological extremism religious intolerance social injustice ecological imbalance consumerism
oppression of the weak and so on He then calls for a radical global ethics that expects us to realize our roles and duties
regarding global peace It includes the role and ideals of educationalists the duties of scientists philosophers and thinkers the
inculcation of human values such as nonviolence and love **Subtle Activism** David Nicol,2015-08-24 Explores whether
consciousness based practices like meditation and prayer can contribute to social change Can awakened consciousness
contribute to social change and if so how David Nicol introduces the concept of subtle activism to describe the use of
consciousness based practices like meditation and prayer to support collective transformation such as global meditation
directed toward peaceful resolution of a conflict Subtle activism represents a bridge between the consciousness movement
and the movements for peace environmental sustainability and social justice It is not a substitute for physical action but
rather a potentially crucial component of a more integrated approach to social change Although ancient lore is rife with tales
of shamans and adepts intervening on spiritual levels for the benefit of humanity this book is the first comprehensive
treatment of this topic Nicol grounds his consideration in the available scientific research and in dialogue with a broad range
of thinkers in the fields of consciousness studies transpersonal theory and New Paradigm thought Many good books are
published each year but important books are harder to come by One of the marks of a truly important book is that it
challenges our deeply held convictions about what is real and what is possible in the world It opens new intellectual horizons
by showing us previously hidden connections David Nicol s *Subtle Activism* is an important book a very important book from

Religious Freedom and the Constitution Christopher L. Eisgruber,Lawrence G. Sager,2010-04-10 Religion has become a charged token in a politics of division In disputes about faith based social services public money for religious schools the Pledge of Allegiance Ten Commandments monuments the theory of evolution and many other topics angry contestation threatens to displace America s historic commitment to religious freedom Part of the problem the authors argue is that constitutional analysis of religious freedom has been hobbled by the

idea of a wall of separation between church and state That metaphor has been understood to demand that religion be treated far better than other concerns in some contexts and far worse in others Sometimes it seems to insist on both contrary forms of treatment simultaneously Missing has been concern for the fair and equal treatment of religion In response the authors offer an understanding of religious freedom called Equal Liberty Equal Liberty is guided by two principles First no one within the reach of the Constitution ought to be devalued on account of the spiritual foundation of their commitments Second all persons should enjoy broad rights of free speech personal autonomy associative freedom and private property Together these principles are generous and fair to a wide range of religious beliefs and practices With Equal Liberty as their guide the authors offer practical moderate and appealing terms for the settlement of many hot button issues that have plunged religious freedom into controversy Their book calls Americans back to the project of finding fair terms of cooperation for a religiously diverse people and it offers a valuable set of tools for working toward that end **Spirits, Blood and Drums**

Department,2018-03-23 MESSAGE OF HIS HOLINESS THE 14TH DALAI LAMA Recently we conducted a research on a group of meditators to study the changes in their body elements The study was done in collaboration with American scientists and it was discovered that after about three weeks of practicing meditation their blood pressure had decreased mind became clearer and calmer and it further reduced stress There are many aspects of brain that are new to us and are yet to be explored It is in fact very important to practice meditation to literally change our brain We must be able to prove scientifically that love and compassion are necessities to maintain physical and mental wellbeing at both individual and social level Modern science deals mainly with brain leaving aside the aspect of mind It is important to make efforts towards cultivation of moral ethics that is directly associated with mental aspect In the ancient times there was no connection between spirituality and science Now we are all aware of the significance of the mental aspect and we need to analyze and conduct scientific studies on the subject of consciousness In Tibetan Monastic communities there have been cases where certain realized practitioners were clinically declared dead but their bodies remained fresh for several days without any decomposition There was a case in which the body of a monk who was declared brain dead not only remained fresh but also gained strength a couple of days after death These cases need to be studied thoroughly and in the course of analysis the findings of the investigation and research as the fundamental principle must be embraced Above is an excerpt from His Holiness s address at the Sanjay Gandhi Post Graduate Institute of Medical Science in the capital of Uttar Pradesh state on the occasion of the 58th annual conference of the Neurological Society of India His Holiness spoke on Brain science and
