Microeconomics Austan Goolsbee, Steven Levitt, Chad Syverson, 2019-09-27 Like no other text for the intermediate microeconomics course Goolsbee Levitt and Syverson's Microeconomics bridges the gap between today's theory and practice. A strong empirical dimension tests theory and successfully applies it. With carefully crafted features and vivid examples Goolsbee Levitt and Syverson's text helps answer two critical questions students ask: Do people and firms really act as theory suggests? and How can someone use microeconomics in a practical way? The authors teach in economics departments and business schools and are active empirical microeconomics researchers. Their grounding in different areas of empirical research allows them to present the evidence developed in the last 20 years that has tested and refined the fundamental theories. Their teaching and professional experiences are reflected in an outstanding presentation of theories and applications.

Fraud and Corruption Nigel Iyer, Martin Samociuk, 2016-12-05 Executives are under enormous pressure to meet stakeholder expectations regarding the prevention of fraud and corruption. However, the drive to demonstrate that they are complying with legislative requirements and high principles has in many cases overshadowed the need to deal with the problem itself. As a result, fraud and corruption remain a significant unmanaged source of risk for many organizations. Drawing on experiences across Europe, America, and Australia, Iyer and Samociuk give you the tools to establish an effective and far-reaching anti-fraud and corruption programme. Included is a compendium of techniques for assessing the true risk of fraud and corruption, reducing those risks, and using health checks to provide early warnings. Also included is *The Tightrope: A Story of Fraud and Corruption*, which takes the reader from first suspicions through crisis and finally recovery in a vivid and instructive style, covering the lessons in the main text. This new book is a must-read for all those responsible for the prevention of fraud and corruption, risk management, corporate compliance, corporate responsibility, and governance.
