

Front Installation

Installing Bottom Rail Seal (some models)

Some models are shipped in a removable sleeve that must be positioned properly for safe and efficient sealing. Follow the Installation Instructions supplied. To install the Bottom Rail Seal, position the seal on top of the bottom rail, flush with the front edge of the rail and in contact with the side seals.

Manual Vertical Louver Adjustment (side air discharge)

Complete this adjustment before installing front panel.

1. Adjust the vertical louvers to the straight position by using the handle.
2. The dial plate and knobs are packed separately. To install them, refer to Installing the Dial Plate and Front Frame section on the next page.

Front Installation - Some Side Air Discharge Models (FIG. 1)

Install the front panel with filter as follows:

1. Adjust the horizontal louvers to the straight position. Hold the front straight until the vertical louver handle lines up between the bottom horizontal louver and the discharge opening.
2. Press the front straight onto the cabinet until the holes in the flange of the plastic front line up with the screw holes in the metal cabinet. Fasten the front panel in place with the two screws provided.

Front Installation - Some Side Air Discharge Models (FIG. 2)

1. Position the top of the decorative front cover onto the top flange of metal case and then align the tabs on the front with slots in metal case.
 2. Carefully pull down on the front cover to engage top tabs while pushing the front cover over the metal case. To ensure proper alignment the side locking tabs will "click" when the front cover is properly installed.
- Note:** Power cord must be held in position inside metal case half-round relief while sliding front cover over metal case.
3. Install the front cover retaining screw at the bottom of the unit.

Installing the Vent Control (on some models)

The vent control handle is included in the decorative front kit (Fig. 30). The handle must be installed before the decorative front is attached. See illustration below.

1. Insert the handle with the "Etchings (Vent/Air)" facing to the left.
2. Slip the black door extension into the slot at the end of the handle.
3. For ease of assembly, Push the handle in while pressing the door extension against the foam until the two pieces lock together.
4. Move handle in and out to be sure vent is operating properly
