Zoological Half (second Semester) University of Michigan, 1910 The Journal of Comparative Psychology , 1926 **Manual** , 1913 *Tacit Dimensions of Pedagogy* Bosse Bergstedt, Anna Herbert, Anja Kraus, Christoph Wulf, 2012 There is a controversy regarding the relationship between theory and praxis in the field of pedagogy with no final decision on how to model it From our perspective theories concerning educational science are especially promising if they face the challenges associated with diverse educational practices and their special circumstances As the central task we consider the development of a notion of the explicit as well as of the tacit side of practices and of the necessity to reflect these two Looking at educational practices is not reduced to the explicit decisions concerning aims subjects schedules social settings etc in the diverse pedagogical fields It also entails the examination of the inexplicable knowledge on which social relations are based Aesthetical dimensions of education like sensual perceptions and time space object relations then are important frames of the practical orientation Furthermore corporal dispositions and influences of

non formal learning on formal learning situations are explored The incidental scenery formed by these tacit factors might open and broaden or it might also close and restrict the significant ways of teaching and learning it might empower learners and teachers in understanding transcending and creating the world or constrain them in doing this **Manual** University of Adelaide.
