law has been shaped by the omnipresence of so called expert manuals Astute and engaging this discerning book provides a
comprehensive account of these black letter rules and commentaries produced by private expert groups and demonstrates
why the general acceptance of these expert manuals is largely unjustified The author innovatively links interdisciplinary
insights to the needs of military lawyers in practice showing the pitfalls of relying on private manuals as arguable

The A to Z of the Holiness Movement William Kostlevy, 2010-04-01 It is much harder to define a religious movement than
it is to define a religion or denomination That applies especially when that movement almost defies definition as the Holiness
Movement does The Holiness Movement is a Methodist religious renewal movement that has over 12 million adherents
worldwide Perhaps the most familiar public manifestation of the holiness movement has been its urban holiness missions and
the Salvation Army noted for its service ministries among poor and people suffering the dislocations that accompany war and
disaster is the most notable example The A to Z of the Holiness Movement relates important new developments in the
Holiness Movement such as the widely discussed Holiness Manifesto are thoroughly discussed and the content has also been
expanded to include information on figures from Asia and Africa to reflect the continued growth of the Holiness Movement

Heinegg, 2018-03-29 In 2015 the United States Department of Defense published its long awaited Law of War Manual making

a significant statement on the position of the US government on important military matters Whilst readers recognise the Manual's legal and strategic importance they may question whether particular statements of law are legally accurate or complete This book offers a unique in depth review of the complete Manual including revisions on a paragraph by paragraph line by line and word by word basis The authors offer their personal assessment of the DoD's declared view as to the law that regulates the conduct of warfare a subject of unparalleled current importance William H Boothby and Wolff Heintschel von Heinegg offer a balanced articulate and authoritative critique for readers perusing the Manual in whatever capacity
