Heroines and Local Girls Pamela L. Cheek, 2019-08-30 Over the course of the long eighteenth century a network of some fifty women writers working in French English Dutch and German staked out a lasting position in the European literary field These writers were multilingual and lived for many years outside of their countries of origin translated and borrowed from each others works attended literary circles and salons and fashioned a transnational women's literature characterized by highly recognizable

codes Drawing on a literary geography of national types women writers across Western Europe read translated wrote and rewrote stories about exceptional young women literary heroines who transcend the gendered destiny of their distinctive cultural and national contexts These transcultural heroines struggle against the cultural constraints determining the sexualized fates of local girls In *Heroines and Local Girls* Pamela L Cheek explores the rise of women s writing as a distinct transnational category in Britain and Europe between 1650 and 1810 Starting with an account of a remarkable tea party that brought together Frances Burney Sophie von La Roche and Marie Elisabeth de La Fite in conversation about St phanie de Genlis she excavates a complex community of European and British women authors In chapters that incorporate history network theory and feminist literary history she examines the century and a half literary lineage connecting Madame de Maintenon to Mary Wollstonecraft including Charlotte Lennox and Fran oise de Graffigny and their radical responses to sexual violence Neither simply a reaction to nor collusion with patriarchal and national literary forms but rather both women s writing offered an invitation to group membership through a literary project of self transformation In so doing argues Cheek women s writing was the first modern literary category to capitalize transnationally on the virtue of identity anticipating the global literary marketplace s segmentation of affinity based reading publics and continuing to define women s writing to this day

Coerced Confessions Susan Berk-Seligson,2009-05-05 The book presents a discourse analysis of police interrogations involving U S Hispanic suspects accused of crimes The study is unique in that it concentrates on interrogations involving suspects whose first language is not English and police officers who have a rudimentary knowledge of Spanish It examines the pitfalls of using police officers as interpreters at custodial interrogations Using an interactional sociolinguistic discourse analytical approach the book offers a microlinguistic examination of interrogations involving persons accused of murder child molestation and kidnapping Communication difficulties are shown to arise from suspects limited proficiency in English and police officers equally limited proficiency in Spanish coupled with the unwillingness of these officers to remain in interpreter footing The volume demonstrates how pidginization and asymmetrical communicative accommodation can emerge in such situations of highly unequal power relations It also demonstrates how cultural factors such as acquiescence to interlocutors

of greater authority and higher socioeconomic status can lead persons of certain Latin American backgrounds to engage in gratuitous concurrence answering yes to police questions even when it is clear that these yes tokens are not truly affirmative responses to those questions In addition the book provides evidence of the kinds of abuse that can result from police interrogations that are not electronically recorded Coerced Confessions reviews appellate cases involving police interpreters spanning a thirty four year period and concludes that the Miranda rights are placed in jeopardy when a police officer is assigned the role of interpreter at a custodial interrogation The Education of Girls.
