between the two Richards takes a cross disciplinary approach and considers the sexuality of trans people within the contexts of psychiatric and psychological settings including Gender Identity Clinics as well as in the broader contexts of cultural and community settings The implications of the research at hand are also explored with respect to counselling psychology and existentialist philosophy Trans and Sexuality will appeal to academics researchers and postgraduate students in the fields of gender and sexuality counselling sociology psychotherapy psychology and psychiatry It will be of particular interest to those seeking an in depth and up to date overview of ethics and methodologies with people from marginalised sexualities and genders *Dental Foundation Training* Amit Rai,2014-02-01 Foundation Training is mandatory for the majority of UK dental graduates who wish to practise NHS dentistry Considered by many dentists as being a rite of passage it underpins the development of a career in all branches of dentistry *Contract and Regulation* Roger Brownsword,Rob A.J. van Gestel,Hans-W.
