using qualitative approaches and now find themselves facing something new a new analytic method a new theoretical lens a new form of data collection a new domain of research questions a new rhetorical approach This requires letting go of the secure handholds of prescribed methods and responding to the contingencies that arise in the midst of the research The reader is invited to follow along as the author makes visible his praxis of qualitative research Unlike more conventional texts in this unique alternative the reader can follow the author's journey through his research studies as a way to reorient their conception of qualitative research and their own praxis of it This is fascinating reading for qualitative researchers and students taking qualitative research courses across the social sciences education and behavioural sciences **The**
