**The Innovation Killer** Cynthia BARTON RABE,2006-07-17 Knowledge is good preaches the inscription under the statue of college founder Emil Faber in the film *Animal House* But as valid as that declamation may be at a university in the corporate world what passes for knowledge can be a killer Companies and teams rely on what we know and the way we do things here to speed decision making and maintain a sense of order But progress demands change risk taking and occasionally revolution Processes must be overhauled assumptions challenged taboos broken But how do you do it Who among the group will take responsibility for a brand new initiative or unorthodox decision Who will be willing to stand up and say in essence that the emperor has no clothes As much as we laud the concept of thinking outside of the box most of us think it s a lot safer to stay inside It s time to call in a zero gravity thinker who is not weighed down by the twin innovation killers GroupThink and its close cousin ExpertThink Such outsiders are in plentiful supply whether from the department down the hall the branch office a consulting firm or even another company Unburdened by all the nagging issues that plague even very effective groups the

outsider will know new ways around a problem identify possibilities where none seemed to exist and spot potential problems before they spin out of control According to *The Innovation Killer* the right zero gravity thinker will ideally possess the following traits Psychological distance the most important tool of the impartial observer it enables him or her to maintain an open mind Renaissance tendencies a wide range of interests experiences and influences more readily inspires innovative approaches Related expertise strength in a relevant area may lead to intersection points at which solutions are often found The book helps identify when and why you should call in a collaborator where to find one and how you and your team can start working with him or her There are also strategies for turning yourself into a zero gravity thinker when it s simply not practical to bring in a true outsider Knowledge is good except when it trumps real innovation Whether your team is too focused on the forest or can t see past the trees this book will help you add the perspective you need to make the great decisions that will move your company forward
