

2. Fan the stack of document pages to ensure that the pages do not stick together. Fan the edge that will be pointing into the ADF in one direction, and then fan that same edge in the opposite direction.

3. Align the edges of the documents by tapping the bottom of the stack against the table top. Rotate the stack 90 degrees and repeat.

4. Place the stack in the middle of the input tray. Load the stack face up. For fastest scanning, load the stack with the left edge leading into the ADF.

 **NOTE:** In the scanning software, choose the layout setting that matches the orientation of the originals in the ADF.

5. Adjust the paper guides to the width of the documents. Take care not to overtighten the guides, which can restrict paper feeding, but make sure that the paper guides touch the edges of the documents.

Hp Scanjet Manual

**Thirumalaisamy P.
Velavancorresponding**

Hp Scanjet Manual:

Eventually, you will entirely discover a other experience and finishing by spending more cash. still when? attain you consent that you require to acquire those all needs in imitation of having significantly cash?
