Telephone Directory United States. Department of Health and Human Services, 1985 **Maintaining Contact** Patrick J. O. Miller, 2000 This thesis describes the structure and use of acoustic signals produced by resident killer whales off Vancouver Island Calling of isolated subpods differed similarly but more subtly than across pods suggesting that pod specific calling arises as a consequence of drift between subgroups as they gradually separate into different pods A towed array beamforming system was developed to identify vocalizing killer whales concurrent with focal behavioral observations A sample of 140 calls was recorded from three members of one matrilineal subgroup showing they shared at least four call types suggesting matrilineal group members use calls in a similar fashion Source levels measured using two beamforming arrays towed in series were combined with a model of sound propagation and perception to estimate the maximum range of detectability of each sound in quiet conditions The estimated range of 4.5 to 26.2 km suggests killer whales can maintain acoustic contact over long distances The frequency structure of 263 calls recorded directly in front and behind animals depended on signaler orientation with high frequencies attenuated when the signaler was oriented away This directionality pattern appears to provide a simple and reliable cue of signaler direction of movement helping killer whales regulate their spacing relative to each other The Code of Federal Regulations of the United States of America , 1998 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government **Code of Federal Regulations** , 2009 **Consumer Law and Policy** Iain Ramsay, 2012-10-25 This new edition continues to provide a critical introduction to the legal regulation of consumer markets situating it within the context of broader debates about rationales for regulation the role of the state and the growth of neo liberalism It draws on interdisciplinary sources assessing for example the increased influence of behavioural economics on consumer law It analyses the Europeanisation of consumer law and the tensions between neo liberalism and the social market consumer protection and consumer choice in the establishment of the single market ground rules The book also assesses national regional and international responses to the world financial crisis as reflected in the regulation of consumer credit markets This edition incorporates recent legislative and judicial developments of the law blending substantial extracts from primary UK EU and international legal materials **Interior, Environment, and Related Agencies Appropriations for 2015** United States.
