Handbook of Research on Strategic Management for Current Energy

Investments Yüksel, Serhat, Dinçer, Hasan, 2021-06-11 Energy has a wide range of uses within a country includin socially and economically Providing everything from warmth and light to raw materials for industrial production energy is an

essential need for countries Due to the importance of energy for countries energy policies are extremely vital and energy needs to be affordable eco friendly and continuous so countries can provide for their people and continue to develop industrially Without the availability of energy that is cheap and continuous the effectiveness in the energy supply process will be reduced and society will experience difficulties in having its daily energy needs met The Handbook of Research on Strategic Management for Current Energy Investments analyzes current trends in energy production and use and identifies energy investment strategies in order to support affordable and available energy for all Chapters within the book cover technological developments that contribute to the reduction of price in energy production as well as renewable energy sources that provide continuity in energy production but do not emit carbon into the atmosphere This book highlights topics that cover environmental pollution energy pricing economic growth carbon dioxide emission and energy management It is ideal for engineers technicians managers researchers academicians policymakers government officials and students in related fields

Power Prediction Modeling of Conventional High-Speed Craft Dejan Radojčić,Milan Kalajdžić,Aleksandar Simić,2019-10-29 The proposed book addresses various power prediction methods a principal design objective for high speed craft of displacement semi displacement and planing type At the core of the power prediction methods are mathematical models based on experimental data derived from various high speed hull and propeller series Regression analysis and Artificial Neural Network ANN methods are used as extraction tools for this kind of models The most significant factors for in service power prediction are bare hull resistance dynamic trim and the propeller s open water efficiency Therefore mathematical modeling of these factors is a specific focus of the book Furthermore the book includes a summary of most of the power prediction relevant literature published in the last 50 years and as such is intended as a reference overview of the best high speed craft modeling practices Once these mathematical models have been developed and validated they can be readily programmed into software tools thereby enabling the parametric analyses required for the optimization of a high speed craft design The proposed book is intended primarily for naval architects who design and develop various types of high speed vessels yachts boats etc as well as for students who are interested in the design of fast vessels The book includes useful Excel Macro Codes for the outlined mathematical models Moreover software for all considered models is provided

Cancer Biomarkers in Diagnosis and Therapeutics Adeeb Shehzad,2022-05-27 This book illustrates the basics and underlying molecular machinery of cancer cells and biochemical assays that detect the type and stage of cancer through cell signaling biomarkers It starts with a brief introduction to cancer biomarkers and addresses technologies for identifying and validating cancer biomarkers biomarkers for cancer drug development prognostic and diagnostic biomarkers and microbiome as cancer biomarkers It reviews predictive biomarkers for anticancer drugs biomarkers in cancer survival and drug resistance biomarkers in tumor recurrence and metastasis the role of the biomarker in immunotherapy and personalized medicine and the development of a novel cancer biomarker Finally this book also

underpins the role of nanotechnology in the use and detection of cancer biomarkers for enhanced sensitivity and specificity Lastly it discusses the challenges with biomarkers in cancer drug discovery and development This volume is an indispensable tool for researchers working in the field of cancer and also for clinical oncologists **Campus Plus 2014** Biju
