Edwards, 2012-11-23 Wadi Hammeh 27 an Early Natufian Settlement at Pella in Jordan is an integrated analysis of subsistence strategies settlement patterns and ritual life in a 14 000 year old hunter gatherer

settlement located in the east Jordan Valley      *The Vortex* Frank Uekötter, 2024-04-18 Environmental challenges are defining the twenty first century To fully understand ongoing debates about our current crises climate change loss of biological diversity pollution extinction resource woes means revisiting their origins in all their complexity With this ambitious highly original contribution to the environmental history of global modernity Frank Uekötter considers the many ways humans have had an impact on their physical environment throughout history Ours is not a one way trajectory to sudden collapse he argues but rather death by a thousand cuts The many paths we've forged to arrive in our current predicament from agriculture to industry to infrastructure must be considered collectively if we are to stay afloat in what Uekötter describes as a vortex a powerful metaphor for the flow of history capturing the momentum and the many crosscurrents that swept people and environments along His book invites us to look at environmental challenges from multiple perspectives including all the twists and turns that have helped to create the mess we find ourselves in Uekötter has written a world history for an age where things are falling apart where we know what lies ahead and are equipped with the right tools technological and otherwise and plenty of experience to deal with environmental challenges but somehow fail to get our affairs in order      *Lucy's Legacy* Dr. Donald Johanson, Kate Wong, 2010-06-01 Lucy is a 3.2 million year old skeleton who has become the spokeswoman for human evolution She is perhaps the best known and most studied fossil hominid of the twentieth century the benchmark by which other discoveries of human ancestors are judged From *Lucy's Legacy* In his New York Times bestseller *Lucy: The Beginnings of Humankind* renowned paleoanthropologist Donald Johanson told the incredible story of his discovery of a partial female skeleton that revolutionized the study of human origins Lucy literally changed our understanding of our world and who we come from Since that dramatic find in 1974 there has been heated debate and most important more groundbreaking discoveries that have further transformed our understanding of when and how humans evolved In *Lucy's Legacy* Johanson takes readers on a fascinating tour of the last three decades of study the most exciting period of paleoanthropologic investigation thus far In that time Johanson and his colleagues have uncovered a total of 363 specimens of *Australopithecus afarensis* Lucy's species a transitional creature between apes and humans spanning 400 000 years As a result we now have a unique fossil record of one branch of our family tree that family being humanity a tree that is believed to date back a staggering 7 million years Focusing on dramatic new fossil finds and breakthrough advances in DNA research Johanson provides the latest answers that post Lucy paleoanthropologists are finding to questions such as How did *Homo sapiens* evolve When and where did our species originate What separates hominids from the apes What was the nature of Neandertal and modern human encounters What mysteries about human evolution remain to be solved Donald Johanson is a passionate guide on an extraordinary journey from the ancient landscape of Hadar Ethiopia where Lucy was unearthed and where many other exciting fossil discoveries have since been made to a seaside cave in South Africa that once sheltered early members of our own species and many other significant sites Thirty five years after Lucy Johanson continues to

enthusiastically probe the origins of our species and what it means to be human      *Time in Contemporary Intellectual Thought* P.J.N. Baert,1999-12-09 In this book fifteen authors from a wide spectrum of disciplines ranging from the natural sciences to the arts offer assessments of the way time enters their work the definition and uses of time that have proved most productive or problematic and the lessons their subjects can offer for our understanding of time beyond the classroom and laboratory walls The authors have tried without sacrificing analytical rigour to make their contribution accessible to a cross disciplinary readership Each chapter reviews time s past and present application in its respective field considers the practical and logical problems that remain and assesses the methods researchers are using to escape or resolve them Particular attention is paid to ways in which the technical treatment of time for problem solving and model building around specific phenomena call on or clash with our intuitive perceptions of what time is and does The spans of time considered range from the fractions of seconds it takes unstable particles to disintegrate to the millions of years required for one species to give way to another Like all central conceptual words time is understood on several levels By inviting input from a broad range of disciplines the book aims to provide a fuller understanding of those levels and of the common ground that lurks at their base Much agreement emerges not only on the nature of the problems time presents to modern intellectual thought but also on the clues that recent discoveries may offer towards possible solutions      **The Silk Road Chronicles** Barrett
