

Human Trafficking in the United States

Abstract

Human trafficking has evolved over ages but this vice remains to be fully combated. Historical records inform that slavery was pivotal in establishing various nations where people were trafficked from various countries and sailed to host nations for various exploitative reasons. In the US, slavery was fundamental in shaping the nation as it was a major contributor to the economy. The victims of slavery experience various forms of discrimination and oppression in the hands of the captors or owners.

In the modern world, slavery is common in the form of human trafficking where the purposes are mainly for labor and sexual exploitation. Globally, humans are trafficked from various countries to work in farms as well as serve as prostitutes in the host nations. In the US, human trafficking is prevalent and it exists in various forms. The offenders and the victims possess various characteristics that suit them to be part of the human trafficking business. However, the US has made various efforts and continues to put measures that seek to stop human trafficking

Introduction

Slavery in the US has been regarded as critical in the formation of this country. It has played a major role in advancing the economy but the victims suffered in return. Modern slavery is apparent in human trafficking where victims are exploited for labor and sexual purposes. In the US, human trafficking embodies the purposes for exploiting illegal migrants in farms as well as in commercial sex industries. Globally, human trafficking involves the transportation of humans from their home country to overseas nations either in pursuit of perceived better living or as a result of forced transportation. This study seeks to investigate what modern-day slavery as well as provide ways in which it has been combated.

Historical and Modern-Day Slavery

Slavery is well-known that has shaped many nations around the globe. In particular, the US has been well documented in reference to slavery from the early years of America as a nation up to the abolition of slavery in 1865. In the US, the South played a critical role in promoting slavery since the farming of cotton depended on slaves. In particular, the farm owners in this region needed slaves for growing cotton to keep up with the region as the global needs of this crop (Wharton, 2010).

The North was also complicit in slavery since it depended on the cotton grown in the South to manufacture textile to export to other nations (Wharton, 2010). However, slave labor in the US has had a significant change to develop into the slavery that came to be known worldwide.

Forced labor first existed as contracted servitude where the employers would contract this labor for a period of years and the labors were regarded as property to the extent of being passed down to the next generations in form of will (Wharton, 2010). This type of forced labor was transformed into slave labor from which

Human Trafficking Natividad Gutiérrez Chong, Jenny B Clark, 2017-09-13 In the post Cold War era economic globalization has resulted in the buying and selling of human beings Poverty social instability lawlessness gender biases and ethnic hostility have entrapped millions in the world of modern day slavery with the result that human trafficking is one of the fastest growing criminal industries in the world Every year men women and children from across the globe are transported within or across borders for the purpose of forced labor and sexual exploitation Despite the plethora of journalistic articles written on human trafficking there is a need for more rigorous academic analysis of the phenomenon Although groups from many different ideologies have embraced policies to end human trafficking there are still many gaps and unanswered questions particularly with regard to the amount of and nature of the phenomenon This book provides an insight into the complexity of human trafficking by addressing both how the scope of globalization impacts the sex industry and forced labor and how vulnerability is a growing cause of human trafficking affecting traditional diasporic and migratory patterns This book was originally published as a special issue of the Journal of Intercultural Studies Human Trafficking

Human Trafficking Marie Segrave,2016-12-05 Human trafficking captured the attention of the global community well over a decade ago inspiring multifarious international national regional and local responses While formally recognized as one of the major threats associated with transnational organized crime human trafficking remains an issue about which much has been written and yet little is known or supported by empirical evidence The essays selected for this volume reflect four key areas of debate the transnational organized crime framework the data and research landscape the implementation of anti trafficking responses and the articulation of alternative responses to human trafficking These essays are written by well known and more recent contributors to this field of research The collection draws attention to contemporary arguments as

well as recent empirical research and points to the importance of contextualizing human trafficking within both the global and local setting This volume reflects where human trafficking data research and debate is currently located and where it is heading and as such is of interest to academics students policymakers and practitioners **Global Human Trafficking**

Molly Dragiewicz,2014-12-05 Human trafficking has moved from relative obscurity to a major area of research policy and teaching over the past ten years Research has sprung from criminology public policy women s and gender studies sociology anthropology and law but has been somewhat hindered by the failure of scholars to engage beyond their own disciplines and favoured methodologies Recent research has begun to improve efforts to understand the causes of the problem the experiences of victims policy efforts and their consequences in specific cultural and historical contexts **Global Human Trafficking** Critical issues and contexts foregrounds recent empirical work on human trafficking from an interdisciplinary critical perspective The collection includes classroom friendly features such as introductory chapters that provide essential background for understanding the trafficking literature textboxes explaining key concepts discussion questions for each chapter and lists of additional resources including films websites and additional readings for each chapter The authors include both eminent and emerging scholars from around the world drawn from law anthropology criminology sociology cultural studies and political science and the book will be useful for undergraduate and graduate courses in these areas as well as for scholars interested in trafficking *Human Trafficking* Kathryn Cullen-DuPont,2009 Despite the United Nations having officially abolished slavery and the slave trade more than 60 years ago millions of human beings continue to be enslaved Human trafficking the official term for the modern day slave trade consists of buying and selling people with the intent of exploiting them through forced labor or sexual acts Human Trafficking provides a thorough examination of this issue It describes the suffering caused by human trafficking as well as the financial and cultural conditions that make modern slavery possible both within and beyond national borders The efforts of the United Nations national governments and nongovernmental organizations to combat human trafficking are thoroughly discussed as are those to provide direct aid to the individual victims Human Trafficking is an eye opening account that examines how the trade is conducted in the United States the Netherlands Nigeria India and Belize Each case study analyzes the patterns of trade the types of exploitation why countries have failed to halt the practice and the unrelenting efforts to eradicate human trafficking Provided by publisher

White Paper on Human Rights in North Korea 2015 Do Kyung-ok,Kim Soo-Am,Han Dong-ho,Lee Keum-Soon,Hong Min,Korea Institute for National Unification(South Korea),2015-09-24 The 2015 edition of the White Paper on Human Rights in North Korea marks the 20th year of the series since its first publication in 1996 This White Paper is based on in depth interviews with 221 of the 1 396 North Koreans who escaped to South Korea in 2014 These samples were selected with their demographic characteristics and social backgrounds taken into account Below are the key highlights of the survey In its national report for the Universal Periodic Review submitted to the United Nations UN Human Rights Council on January 30

2014 North Korea explained that death penalty is applied to extremely restricted cases In reality however North Korea has an extensive list of crimes punishable by the death penalty defined not just by the Criminal Law but also by its Addendum the death penalty may also be imposed by promulgations instructions and other alternative formats North Korean defectors who have witnessed the death penalty carried out in public have provided testimony that it has actually been given for a wide range of crimes Of special note is that over the last few years the number of people put to death for watching distributing South Korean video recordings or smuggling trafficking narcotics is on a remarkable rise This was widely observed in our 2014 survey too Human rights violations in ordinary prison camps kyohwaso labor training camps rodongdanryundae holding centers jipkyulso detention centers political prison camps kwanliso and other detention facilities are still known to be serious Inhumane treatment including torture and beatings are part of the daily routine nutrition medical care and hygiene are also very poor In our 2014 survey however some interviewees suggested that the human rights conditions in ordinary prison camps kyohwaso were improving somewhat North Korean defector XXX who was held for a long time at the Jongori kyohwaso where a massive number of violent incidents and human rights violations reportedly took place explained that beatings at the kyohwaso was on the decrease North Korean defector XXX who had been detained at the Jongori kyohwaso until recently said that strenuous effort was being made to bring fatal incidents under control as the reality of the human rights infringements at the kyohwaso were known to the outside world through former inmates Meanwhile the 2014 survey results include testimonies on those released from political prison camps kwanliso in 2012 and 2013 after Kim Jong un took over as the new leader of North Korea Witnesses explained that their release was based on Kim Jong un s policy that those who have one percent of a conscience are given a second chance despite 99 percent of their faults and that these people were released as Kim Jong un upon taking office told those whose crimes were motivated by personal grievance as opposed to criticism of the state should be freed which is within the context of his politics of law Similar cases can be found in North Korea s On site Open Trials System too Testimonies from North Korean defectors show that when On site Open Trials were conducted for a large number of people held for the same charge some of them are executed immediately in public as examples while others are found innocent and released allegedly due to Kim Jong un s consideration or policy While unleashing a reign of terror against the power elites the young leader seems to be seeking to present himself to ordinary citizens as a leader who loves the people Nonetheless the very fact that these measures are possible shows his policies and instructions have supra legal authority in North Korea A typical infringement on freedom of residence the practice of forced deportation is still found to be widespread North Korean defector XXX testified that in 2013 during his on site instructions in Musan Kim Jong un ordered transformation of the city boundaries into an exemplary area This led to the forced deportation of more than 600 households living within 300 meters of the city boundaries Such massive involuntary relocation was enforced primarily upon family members of illegal border crossers or those with criminal records such as illegal use of a

mobile phone A number of testimonies also suggested that forced deportation has been on the increase since mid 2013 in Samjiyon County within which is the hometown of Kim Jong il In particular those whose parents are from rural areas former detainees at ordinary prison camps kyohwaso and their family members and illegal border crossers are first to be relocated According to the 2014 survey results little progress has been made in improving North Koreans rights to food and health When it comes to the right to food the total volume of food available has increased since 2010 but North Korea s discriminatory distribution policies has led to continued discrepancy among ordinary citizens in their access to food Collection of excessive amounts of produce from farm workers in particular has undermined their right to food on a continuous basis This seems partly attributable to the assignment of unrealistically high production quota and the falsification of distribution documents Excluded from the Public Distribution System PDS marginalized members of North Korean society tap into money offered by loan sharks to deal with the scarcity ending up suffering even more In the 2014 survey however a large number of interviewees said the public distribution supply has temporarily improved since 2012 as North Korean authorities released military provisions As for the right to health the uneven distribution of resources as a result of economic hardship and military first politics has destroyed the medical system as a whole The absolute lack of medicine and basic medical equipment has continued while some interviewees pointed out in the 2014 survey that an increasing amount of medicine was being provided by Jungsung Pharmaceuticals Meanwhile as the North s free treatment system is not working properly patients in need of surgery often end up paying for the related costs for themselves The military ranks are also seeing their right to health deteriorating Some interviewees stated that the military was also short on medicine and not just civil society The community doctor system and other mechanisms of preventive medicine propagandized by the North Korean authorities are not functioning properly Community doctors are currently incapable of treating patients and can only issue medical certificates they are known to work primarily on vaccinations such as preventive injections against epidemics A large number of interviewees in the 2014 survey said that vaccination was being offered Vaccination seems to be improving efforts to prevent disease Areas receiving aid from the UN and other international actors also enjoy relatively better medical treatment Despite many constraints and the resulting shortcomings we hope that this White Paper will draw more attention at home and abroad to the issue of human rights in North Korean while contributing to domestic and international discussion and action on improving the situation

Routledge International Handbook of Human Trafficking Rochelle Dalla,Donna Sabella,2019-09-19 According to the UNODC 2015 human trafficking HT is the fastest growing means by which

people are enslaved the fastest growing international crime and one of the largest sources of income for organized criminal networks. It profoundly impacts the physical and mental health of victims, their families and entire communities and is recognized as a crime against humanity. Despite burgeoning interest, education, research and advocacy efforts, a pinnacle handbook devoted to human trafficking and modern day slavery with global focus and multidisciplinary scope does not currently exist. The Routledge International Handbook of Human Trafficking was created to fill this resource gap. Divided into four sections, the Handbook offers the reader a comprehensive and fresh approach via a in depth analyses and opportunities for application through case studies, critical thinking questions and supplemental learning materials. b multidisciplinary linkages with disciplinary overlap across each of the four sections acknowledged and highlighted and c content experts representing multiple segments of society: academia, government, foundation, law enforcement and practice and global vantage points: Australia, Finland, Germany, Netherlands, South Africa, Thailand and the United States. Written by expert scholars, service providers, policy analysts and healthcare professionals, this Handbook is an invaluable resource for those already working in the field as well as for students in any discipline who want to learn or learn more about HT and modern day slavery.

Sex Trafficking and Modern Slavery Marie Segrave, Sanja Milivojevic, Sharon Pickering, 2017-09-13. The second volume of Sex Trafficking: International context and response. Human trafficking and modern slavery have captured the imagination and attention of the international community. This book builds on the authors' first volume, Sex Trafficking: International context and response. Much has changed since the first volume was published, not least the shift away from sex trafficking to modern slavery as the dominant focus in policy and advocacy. Yet as the authors argue, little has changed with regards to how nations respond. This volume re-examines the international counter trafficking scholarship and policy response to offer an analysis based on original and new data. This book lays the ground for specific forms of research and inquiry that are necessary to better understand and respond to the range of exploitative practices and conditions that give rise to human trafficking. This book offers a detailed analysis of the dominant response to human trafficking which is framed by the criminal justice process. Examining the identification of victims, the investigation of cases, victim support, prosecutorial decisions and repatriation practices, the authors draw upon original research from Australia, Serbia and Thailand, three diverse nations that like nations across the globe have invested heavily in criminalisation as the dominant response to counter trafficking. They argue that exploitation sits at the nexus of global migration patterns and emphasise the importance of speaking to those directly affected by counter trafficking policies and those directly involved in their implementation in order to produce empirical data to inform how we make sense of the numbers that are produced, the outcome of the policies and how we ought to determine success in this context. An empirical, criminologically informed opportunity to reconsider the dominant ways of understanding and strategies of responding to human trafficking, this multi-disciplinary book will be of interest to those engaged in criminology, sociology, law, political science, public policy and gender studies. **A West African**

Model to Address Human Trafficking Paul V.I. Sidlawinde Karenga, 2022-02-02 This book describes the nature of trafficking in persons in West Africa focusing on labor and sexual exploitation in the region and recommends tailor made solutions established by the Catholic Church in light of governmental authorities failure to effectively combat this scourge of humanity While states efforts to fulfill their international obligations in developing anti trafficking legislations are recognized their failure to carry out prosecutions of offenders and ensure protection of the victims reveals that law alone is not a sufficient instrument for realizing human rights and improving people s lives Faced with the sobering background of less than successful efforts by governmental entities to end the trade in humans this research study recommends adopting essential elements of Catholic social teaching which rests on the inherent dignity of human beings allowing the development of political socio cultural and religious reforms that will increase the effectiveness of existing legislation designed to combat trafficking This faith based approach highlights the role that religion may play in fulfilling the discretionary provisions of the Palermo Protocol by promoting the welfare and protecting the life and dignity of the victims Additionally religion is composed of sound moral ethics that determine people s behavior to refrain from the sinful conduct of trafficking It also creates a sense of ethical responsibility that promotes supply chain transparency and ethical purchasing as well as advocating social reforms and anti trafficking legislations initiatives In fact the author s approach may be a model for other regions in the world and will be of interest to scholars law and policy makers human rights advocates and law enforcement agents working in the field of trafficking in persons
