Humanism A Very Short Introduction:

Humanism Stephen Law, 2011-01-27 Religion is currently gaining a much higher profile The number of faith schools is increasingly and religious points of view are being aired more frequently in the media As religion's profile rises those who reject religion including humanists often find themselves misunderstood and occasionally misrepresented Stephen Law explores how humanism uses science and reason to make sense of the world looking at how it encourages individual moral responsibility and shows that life can have meaning without religion Challenging some of the common misconceptions he seeks to dispute the claims that atheism and humanism are faith positions and that without God there can be no morality and our lives are left without purpose Looking at the history of humanism and its development as a philosophical alternative he examines the arguments for and against the existence of God and explores the role humanism plays in moral and secular societies as well as in moral and religious education Using humanism to determine the meaning of life he shows that there is a positive alternative to traditional religious belief ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Humanism: A Very Short Introduction* Stephen Law, 2011-01-27

Summary Philosopher Stephen Law explains why humanism though a rejection of religion nevertheless provides both a moral basis and a meaning for our lives publisher description ***Atheism: A Very Short Introduction* Julian Baggini, 2003-06-26** Atheism is often considered to be a negative dark and pessimistic belief which is characterized by a rejection of values and purpose and a fierce opposition to religion Atheism A Very Short Introduction sets out to dispel the myths that surround atheism and show how a life without religious belief can be positive meaningful and moral It also confronts the failure of officially atheist states in the Twentieth Century The book presents an intellectual case for atheism that rests as much upon positive arguments for its truth as on negative arguments against religion ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Key Terms in Literary Theory** Mary

Klages, 2012-03-29 Students of literature film and cultural studies need to understand key theoretical terms and concepts but often find it hard to get to grips with exactly what they mean This book provides precise definitions of terms and concepts in literary theory along with explanations of the major movements and figures in literary and cultural theory and an extensive bibliography It is designed for the student who needs to know what a particular term means how it is used and where it comes from and enables them to apply the terms and concepts to their own investigations The three part structure provides clear definitions of key terms and ideas introductions to major figures including biographical and historical overviews and an

annotated guide to important works This invaluable resource provides readers with an easily accessible and comprehensive reference guide to literary and cultural theory

The Oxford Handbook of Humanism Anthony B. Pinn, 2021 As a system of thought that values human needs and experiences over supernatural concerns humanism has gained greater attention amid the rapidly shifting demographics of religious communities This outlook has taken on global dimensions with activists artists and thinkers forming a humanistic response not only to religion but to the pressing social and political issues of the 21st century The Oxford Handbook of Humanism aims to explore the subject by analyzing its history its philosophical development and its influence on culture It will also discuss humanism as a global phenomenon an approach that has often been neglected in more Western focused works

The Renaissance: A Very Short Introduction Jerry Brotton, 2006-04-27 Exploring the Renaissance as a time of unprecedented intellectual excitement cultural experimentation interaction on a global scale this book guides the reader through the key issues that defined the period from art architecture literature to the advances in science trade travel

An Introduction to Literature, Criticism and Theory Andrew Bennett, Nicholas Royle, 2023-03-23 Lively original and highly readable An Introduction to Literature Criticism and Theory is the essential guide to literary studies Starting at The Beginning and concluding with The End chapters range from the familiar such as Character Narrative and The Author to the more unusual such as Secrets Pleasure and Ghosts Now in its sixth edition Bennett and Royle's classic textbook successfully illuminates complex ideas by engaging directly with literary works so that a reading of Jane Eyre opens up ways of thinking about racial difference for example while Chaucer Monty Python and Hilary Mantel are all invoked in a discussion of literature and laughter The sixth edition has been revised and updated throughout In addition four new chapters Literature Loss Human and Migrant engage with exciting recent developments in literary studies As well as fully up to date further reading sections at the end of each chapter the book contains a comprehensive bibliography and an invaluable glossary of key literary terms A breath of fresh air in a field that can often seem dry and dauntingly theoretical this book will open the reader's eyes to the exhilarating possibilities of reading and studying literature

The Oxford Handbook of Atheism Stephen Bullivant, Michael Ruse, 2013-11-21 Recent books by among others Sam Harris Richard Dawkins and Christopher Hitchens have thrust atheism firmly into the popular media and academic spotlight This so called New Atheism is arguably the most striking development in western socio religious culture of the past decade or more As such it has spurred fertile and often heated discussions both within and between a diverse range of disciplines Yet atheism and the New Atheism are by no means co extensive Interesting though it indeed is the New Atheism is a single historically and culturally specific manifestation of positive atheism the that there is no God's which is itself but one form of a far deeper broader and more significant global phenomenon The Oxford Handbook of Atheism is a pioneering edited volume exploring atheism understood in the broad sense of an absence of belief in the existence of a God or gods in all the richness and diversity of its historical and contemporary expressions Bringing together an international

team of established and emerging scholars it probes the varied manifestations and implications of unbelief from an array of disciplinary perspectives philosophy history sociology anthropology demography psychology natural sciences gender and sexuality studies literary criticism film studies musicology and in a range of global contexts Western Europe North America post communist Europe the Islamic world Japan India Both surveying and synthesizing previous work and presenting the major fruits of innovative recent research the handbook is set to be a landmark text for the study of atheism

Religious and Non-Religious Perspectives on Happiness and Wellbeing Sharada Sugirtharajah, 2022-04-25 This book explores the theme of happiness and well being from religious spiritual philosophical psychological humanistic and health perspectives Taking a non binary approach it considers how happiness in particular has been understood and appropriated in religious and non religious strands of thought The chapters offer incisive insight from a variety of perspectives including humanism atheism and major religions such as Christianity Islam Buddhism Hinduism and Judaism Together they demonstrate that although worldviews might vary substantially there are concurrences across religious and non religious perspectives on happiness that provide a common ground for further cross cultural and interreligious exploration What the book makes clear is that happiness is not a static or monolithic category It is an ongoing process of being and becoming striving and seeking living ethically and meaningfully as well as arriving at a tranquil state of being This multifaceted volume makes a fresh contribution to the contemporary study of happiness and is valuable reading for scholars and students from religious studies and theology including those interested in interreligious dialogue and the psychology of religion as well as positive psychology

The End(s) of Religion Eric Bain-Selbo, 2022-01-13 Eric Bain Selbo argues that the study of religion from philosophers to psychologists and historians of religion to sociologists has separated out the ends or goals of religion and thus created the conditions by which institutional religion is increasingly irrelevant in contemporary Western culture There is ample evidence that institutional religion is in trouble and little evidence that it will strengthen in the future giving some reason to believe that we are in the process of seeing the end of religion At the same time various cultural practices have met in the past and continue to meet today certain fundamental human needs needs that we might identify as religious that now are being fulfilled through what Bain Selbo calls the religion of culture The End s of Religion traces the way that the very study of religion has led to institutional religion being viewed as just one human institution that can address our particular religious needs rather than the sole institution to do so In turn ultimately we can begin to see how other institutions or forms of culture can function to serve these same needs or ends

Atheism and Agnosticism Peter A. Huff, 2021-09-01 An overview essay and approximately 50 alphabetically arranged reference entries explore the background and significance of atheism and agnosticism in modern society This is the age of atheism and agnosticism The number of people living without religious belief and practice is quickly and dramatically rising Some experts call nonreligion after Christianity and Islam the third largest religion in the world today Understanding the origins history variations and impact of atheism and agnosticism is

crucial to getting a grasp of the meaning of the present and gaining a glimpse of the future Exploring some of the most extraordinary people events and ideas of all time this book provides a fair comprehensive and engaging survey of all aspects of contemporary atheism and agnosticism An overview essay discusses the background and social and political contexts of unbelief while a timeline highlights key events Some 50 alphabetically arranged reference entries follow with each providing fundamental objective information about particular topics along with cross references and suggestions for further reading The volume closes with an annotated bibliography of the most important resources on atheism and agnosticism

Understand Humanism: Teach Yourself Mark Vernon, 2010-06-25 Understand Humanism is the definitive introduction to this diverse and increasingly prominent philosophy This guide teaches you everything you need to know about humanism from its ancient origins and key figures to humanist answers to pressing modern issues like climate change and identity politics NOT GOT MUCH TIME One five and ten minute introductions to key principles to get you started AUTHOR INSIGHTS Lots of instant help with common problems and quick tips for success based on the author's many years of experience TEST YOURSELF Tests in the book and online to keep track of your progress EXTEND YOUR KNOWLEDGE Extra online articles at www.teachyourself.com to give you a richer understanding of psychology FIVE THINGS TO REMEMBER Quick refreshers to help you remember the key facts TRY THIS Innovative exercises illustrate what you've learnt and how to use it *The Bloomsbury Companion to Contemporary Philosophy of Medicine* James A. Marcum, 2016-12-15 A definitive and authoritative guide to a vibrant and growing discipline in current philosophy The Bloomsbury Companion to Contemporary Philosophy of Medicine presents an overview of the issues facing contemporary philosophy of medicine the research methods required to understand them and a trajectory for the discipline's future Written by world leaders in the discipline this companion addresses the ontological epistemic and methodological challenges facing philosophers of medicine today from the debate between evidence based and person centered medicine medical humanism and gender medicine to traditional issues such as disease health and clinical reasoning and decision making Practical and forward looking it also includes a detailed guide to research sources a glossary of key terms and an annotated bibliography as well as an introductory survey of research methods and discussion of new research directions emerging in response to the rapid changes in modern medicine Philosophy needs medicine Hillel Braude argues to become more relevant By showing how modern medicine provides philosophers with a rich source of material for investigating issues facing contemporary society The Bloomsbury Companion to Contemporary Philosophy of Medicine introduces the opportunities medicine offers philosophers together with the resources and skills required to contribute to contemporary debates and discussions

Chicago Frederik Byrn Køhlert, 2021-09-23 Chicago occupies a central position in both the geography and literary history of the United States From its founding in 1833 through to its modern incarnation the city has served as both a thoroughfare for the nation's goods and a crossroads for its cultural energies The idea of Chicago as a crossroads of modern America is

what guides this literary history which traces how writers have responded to a rapidly changing urban environment and labored to make sense of its place in and implications for the larger whole In writing that engages with the world's first skyscrapers and elevated railroads extreme economic and racial inequality a growing middle class ethnic and multiethnic neighborhoods the Great Migration of African Americans and the city's contemporary incarnation as a cosmopolitan urban center Chicago has been home to a diverse literature that has both captured and guided the themes of modern America

Non-Religious Pastoral Care David Savage, 2018-09-21 This ground breaking book is a guide to non religious pastoral care practice in healthcare prisons education and the armed forces in the UK It brings a new perspective to our understanding of care services traditionally offered by chaplaincy departments The book charts the progress from a Christian to a multi faith and on to a fully inclusive care service Compelling evidence is presented showing strong and broad support for non religious pastoral care provision A practical guide it outlines the beliefs and values on which this care is founded and its person centred approach The role skills competencies and training requirements for non religious pastoral carers are described Institutions need to consider their policy responses to the rapid development of non religious pastoral care provision A number of policy aspects are explored including understanding service users needs recruitment and communications This book is essential reading for non religious pastoral carers and those thinking of entering this field Chaplains and institutional managers responsible for chaplaincy or spiritual care departments will find this book gives them valuable insights into the positive contribution non religious pastoral carers can make in building stronger more inclusive pastoral spiritual and religious care services

To Light the Flame of Reason Christer Sturmark, 2022-05-01 To Light the Flame of Reason is all about the art of clear thinking an art that is needed now more than ever in the world we now live in Written for anyone who wants to navigate better in this world filled with populist dogmas anti science attitudes and pseudo philosophy authors Christer Sturmark and Douglas Hofstadter provide a set of simple tools for clear thinking as well as a deeper understanding of science truth naturalism and morality It also offers insights into the rampant problems of extremism and fundamentalism and suggestions for how the world can move towards a new enlightenment The book argues that we need to reawaken the basic values and ideals that defined the original age of enlightenment We need to accept the idea that the world we inhabit is part of nature and that it has no trace of supernatural or magical forces Ethical questions should be detached from religion This doesn't mean that the questions become any easier just that ideas are tested and judged without being profoundly tainted and constrained by religious dogmas Such a form of secular humanism builds on the power of free thought the power to investigate and understand the natural world Although not everything can be investigated or understood the sincere quest for knowledge and understanding establishes a flexible nondogmatic attitude toward the world Curiosity and openness lie at the core of such an attitude The scientific method of careful and open minded testing as well as science's creative and reflective ways of thinking provides key tools What clear science inspired thinking helps us to

understand among many other things is that a person can be good and can be motivated to carry out morally good actions without ever bowing to or being limited by supposedly divine forces To Light the Flame of Reason will appeal to adults who are trying to figure out how to deal with the ever increasing daily bombardment of conflicting messages about what is right true sensible or good and it should appeal even more to teenagers and university students who are struggling to find a believable and reliable philosophy of life that can help guide them in their choices of what and whom to trust and how to act both on the personal and the social level Today more people have greater access to information and knowledge than ever was dreamt of before and more people are concerned about the world situation More people have the chance through their own actions to make a difference Each one of us as an individual matters It is thus vitally important that each of us should choose in a conscious and reflective manner our own views of reality of the world and of humanity And this means that it is crucial for us all to train ourselves in the art of thinking clearly Christer Sturmark along with Pulitzer Prize winning author Douglas Hofstadter argue that we must refocus our efforts on cultivating a secular society and in doing so we will rediscover the values and ethics that are so foreign in today's society Pragmatism and Poetic Agency Ulf Schulenberg, 2021-11-18 Pragmatism is a humanist philosophy In spite of the much debated renaissance of pragmatism however a detailed discussion of the relationship between pragmatism and humanism is still a desideratum It is difficult to understand the complexity of pragmatism without considering the significance of humanism At least since the 1970s humanism mostly in its liberal version has been vehemently attacked and criticized In pragmatism however a particular understanding of humanism has persisted Bringing literary studies philosophy and intellectual history together and establishing a transatlantic theoretical dialogue Pragmatism and Poetic Agency endeavors to elucidate this persistence of humanism Schulenberg continues the thought provoking argument he developed in his previous two monographs by advancing the idea that one can only grasp the unique contemporary significance of pragmatism when one realizes how pragmatism humanism anti authoritarianism and postmetaphysics are interlinked If one appreciates the implications and consequences of this link then one is in a position to see pragmatism's antifoundationalist and antirepresentationalist story of progress and emancipation as continuing the project of the Enlightenment *Being Human* J. Andrew Kirk, 2019-01-25 This book offers an introductory review to a wide range of thinking formulated over the last half millennium in the Western world about the meaning of human existence It will touch on a variety of issues of contemporary significance such as the origin and uniqueness of the human species freedom and determinism the nature of good and evil and the possibilities and limits of the sciences The book will supply a number of explanatory comments from a Christian perspective on the various views uncovered Insofar as human beings are fascinated by exploring the reality of their own selves in relation to history culture the natural environment and a variety of worldviews this book will afford readers plenty of material to stimulate them in their own exploration Encyclopedia of Environmental Change John A Matthews, 2013-12-13 Accessibly written by a team of international authors the Encyclopedia of

Environmental Change provides a gateway to the complex facts concepts techniques methodology and philosophy of environmental change This three volume set illustrates and examines topics within this dynamic and rapidly changing interdisciplinary field The encyclopedia includes all of the following aspects of environmental change Diverse evidence of environmental change including climate change and changes on land and in the oceans Underlying natural and anthropogenic causes and mechanisms Wide ranging local regional and global impacts from the polar regions to the tropics Responses of geo ecosystems and human environmental systems in the face of past present and future environmental change Approaches methodologies and techniques used for reconstructing dating monitoring modelling projecting and predicting change Social economic and political dimensions of environmental issues environmental conservation and management and environmental policy Over 4 000 entries explore the following key themes and more Conservation Demographic change Environmental management Environmental policy Environmental security Food security Glaciation Green Revolution Human impact on environment Industrialization Landuse change Military impacts on environment Mining and mining impacts Nuclear energy Pollution Renewable resources Solar energy Sustainability Tourism Trade Water resources Water security Wildlife conservation The comprehensive coverage of terminology includes layers of entries ranging from one line definitions to short essays making this an invaluable companion for any student of physical geography environmental geography or environmental sciences

Supernatural Out of the Box Lisa Macklem, Dominick Grace, 2020-07-31 Supernatural is one of the most successful horror TV shows ever providing fifteen seasons of the adventures of Dean and Sam Winchester as they hunt monsters and save the world It has nurtured a passionate fan base which has been far more directly integrated into the show than is typical Wry and self aware Supernatural repeatedly breaks out of the televisual box to acknowledge its fans and its own fictionality Though there have already been several studies of Supernatural this volume is the first to focus extensively and intensively on the show s metafictional elements This essay collection argues that Supernatural is not merely a horror show but is a show about how horror works as a genre and how fans interact with their favorite material From exploring how the show has equated authorship with divinity to considering its incorporation of fandom and closely reading several key episodes the essays in this volume seek to examine the multiple layers of textuality found in Supernatural
