Women, Poetry, and Politics in Seventeenth-Century Britain

Sarah C. E. Ross, 2015-02-26 *Women Poetry and Politics in Seventeenth Century Britain* offers a new account of women's engagement in the poetic and political cultures of seventeenth century England and Scotland based on poetry that was produced and circulated in manuscript. Katherine Philips is often regarded as the first in a cluster of women writers including Margaret Cavendish and Aphra Behn who were political secular literary print published and renowned. Sarah C. E. Ross explores a new corpus of political poetry by women offering detailed readings of Elizabeth Melville, Anne Southwell, Jane Cavendish, Hester Pulter, and Lucy Hutchinson and making the compelling case that female political poetics emerge out of social and religious poetic modes and out of manuscript based authorial practices. Situating each writer in her political and intellectual contexts from early covenanting Scotland to Restoration England, this volume explores women's political articulation in the devotional lyric, biblical verse, paraphrase, occasional verse, elegy, and emblem. For women excluded from the public political sphere, these rhetorically modest genres and the figural language of poetry offered vital modes of political expression, and women of diverse affiliations use religious and social poetics, the tropes of family and household, and the genres of occasionality that proliferated in manuscript culture to imagine the state. Attending also to the transmission and reception of women's poetry in networks of varying reach, Sarah C. E. Ross reveals continuities and evolutions in women's relationship to politics and poetry and identifies a female tradition of politicised poetry in manuscript spanning the decades before, during, and after the Civil Wars.

From the Deer to the Fox Mandy de Belin, 2013-09-01 Between the 17th and 19th centuries, the sport of hunting was transformed: the principal prey changed from deer to fox, and the methods of pursuit were revolutionized. Questioning the traditional explanation of the hunting transition—namely, that change in the landscape led to a decline of the deer population—this book explores the terrain of Northamptonshire during that time period and seeks alternative justifications. Arguing that the many changes that hunting underwent in England were directly related to the transformation of the hunting horse, this in-depth account demonstrates how the near-thoroughbred horse became the mount of choice for those who hunted in the shires. This book shows how quite literally the thrill of the chase drove the hunting transition.

Universal Dictionary of the English Language: Rhe-Z Robert Hunter, 1897

Universal Dictionary of the English Language Robert Hunter, 1899 Gray Ghosts and Red Rangers Thad Sitton, 2010-09-24 Around a campfire in the woods through long hours of night men used to gather to listen to the music of hounds voices as they chased an elusive and seemingly preternatural fox To the highly trained ears of these backwoods hunters the hounds told the story of the pursuit like operatic voices chanting a great epic Although the hunt almost always

ended in the escape of the fox as the hunters hoped it would the thrill of the chase made the men feel that they were close to something lost and never to be found just as one can feel something in a great poem or a dream Gray Ghosts and Red Rangers offers a colorful account of this vanishing American folkway back country fox hunting known as hilltopping moonlighting fox racing or one gallus fox hunting Practiced neither for blood sport nor to put food on the table hilltopping was worlds removed from elite fox hunting where red and black coated horsemen thundered across green fields in daylight Hilltopping was a nocturnal even mystical pursuit uniting men across social and racial lines as they gathered to listen to dogs chasing foxes over miles of ground until the sun rose Engaged in by thousands of rural and small town Americans from the 1860s to the 1980s hilltopping encouraged a quasi spiritual identification of man with animal that bound its devotees into a brotherhood of blood and cause and made them seem almost crazy to outsiders *Secret Guildford* Marion Field,2018-05-15 Explore Guildford s secret history through a fascinating selection of stories facts and photographs **The Modern Eclectic Dictionary of the English Language** Robert Hunter,Charles Morris,1905 *Universal Dictionary of the English Language* ,1898 *Memories of Eton and King's* William Charles Green,1905 *Scott the Rhymer* Nancy Moore Goslee,2021-12-14 Renewed arguments over the definition of Romanticism warrant a new look at the narrative poetry of Sir Walter Scott Nancy Moore Goslee s study the first full treatment of Scott s poems in many years will do for his poetry what Judith Wilt s book has done for his novels Already a subtle reader of the high Romantics and their celebrations of the visionary imagination Goslee draws upon several recent critical developments for this study of Scott a growing tendency among critics of his novels to see romance as a positive strength the broader development of narrative theory and feminist theory Like Thomas the Rhymer the half historical half mythic minstrel who rides off with the elfin queen Scott s poems repeatedly accept the world of romance and yet challenge it often wittily with an array of hermeneutic perspectives upon its function The perspectives Goslee considers most fully are the development of poetry from a communal oral performance to a written published document the larger more violent development of Scottish and British history from feudal to modern cultures and the repeated contrast in that succession of cultures between the limited passive role of most actual women and their active powerful role as elfin queen or enchantress in the romance As if drawn toward yet simultaneously repelled by such women Scott alternates between poems in which enchantresses seem to control their worlds and those in which women are only pawns desirable for the land they inherit The poems of the latter group are more realistically historical in plot turning upon major battles those of the former are more romantic and magical Yet both follow similar narrative patterns derived from medieval and especially Renaissance romance Both too show a wandering in more primitive violent societies which delays the rational gradual progress seen as cultural salvation by Enlightenment historians **Material Culture and Sedition, 1688-1760** M. Pittock,2013-10-18 Material Culture and Sedition 1688 1760 is a groundbreaking study of the ways in which material culture and its associated designs rituals and symbols was used to avoid prosecution for treason and sedition in the British Isles The

Image and Imagination Sandra Malicote, 2010 The first in depth interdisciplinary study of word and image in the Old French chanson de geste *Image and Imagination Picturing the Old French Epic* examines the fascinating relationship between illumination and epic narrative constructed by the medieval understanding of the imagination The study focuses on the epic cycle known as the geste of Saint Gille including *Aiol* and *Elie de Saint Gille* The poems in manuscript were produced in the context of the opulent francophone Flemish courts of the mid to late thirteenth century The manuscript known as BNF fr 25516 is richly illuminated and the study includes the popular *Beuves de Hanstone* forerunner of Shakespeare's *Hamlet* and the poem *Robert le Diable* later becoming Meyerbeer's celebrated opera Concluding with the comparative study of BNF fr 24403's epic treatment of the only illuminated version of Chretien de Troyes first Arthurian work *Erec et Enide* and the Sancti Bertini version of *La Chevalerie Vivien* the first dated collection of epics made for a prominent northern Bishop this study introduces the hitherto little explored world of medieval illumination and epic narrative poetics
