Hunting Practices of the Wachiperi Rodolfo Tello, 2016-12-14 When it comes to environmental conservation and sustainable development initiatives in tropical forests indigenous peoples are key players They have been described often as either conservationists or destroyers of biodiversity The position adopted on this matter is important because it guides the design and implementation of conservation strategies The central question about what makes indigenous peoples conserve or degrade biodiversity however has posed a significant challenge particularly in light of widespread trends such as cultural change market expansion and greater diversification of livelihoods The reasons why indigenous communities end up degrading or conserving natural resources are addressed in a comprehensive yet accessible manner in this book filling a critical gap in current knowledge about the socioeconomic drivers of biodiversity loss and the rise of community based conservation using the hunting trends and conservation efforts of the Wachiperi for this analysis Readers could greatly benefit from the lessons provided in this book about achieving both socioeconomic development and biodiversity conservation by engaging indigenous communities in a sustainable manner

Hunting Practices of the Wachiperi Rodolfo Tello, 2013-03-30 What makes indigenous peoples conserve or degrade biodiversity This book addresses this question in a comprehensive yet accessible manner In a context where indigenous ways of life can be significantly influenced by policies and practices guided by preconceived notions based on flawed assumptions this book fills a critical gap in current knowledge about the changing environmental behavior of indigenous peoples particularly in light of widespread phenomena such as cultural change market dynamics and greater diversification of livelihoods The flexible way of understanding the relationship between indigenous peoples and tropical biodiversity presented in this book can greatly benefit both people and the environment

The Shaping of Indigenous Environmental Behavior Rodolfo Tello Abanto, 2010 Settlement Patterns and Ecosystem Pressures in the Peruvian Rainforest: Understanding the Impacts of Indigenous Peoples on Biodiversity Rodolfo Tello, 2016-06-11 *Marking the Land* William A Lovis, Robert Whallon, 2016-02-26 Marking the Land investigates how hunter gatherers use physical landscape markers and environmental management to impose meaning on the spaces they occupy The land is full of meaning for hunter gatherers Much of that meaning is inherent in natural phenomena but some of it comes from modifications to the landscape that hunter gatherers themselves make Such alterations may be intentional or unintentional temporary or permanent and they can carry multiple layers of meaning ranging from practical signs that provide guidance and information through to less direct indications of identity or abstract highly symbolic signs of sacred or ceremonial significance This volume investigates the conditions which determine the investment of time and effort in physical landscape marking by hunter gatherers and the factors which

determine the extent to which these modifications are symbolically charged Considering hunter gatherer groups of varying sociocultural complexity and scale Marking the Land provides a systematic consideration of this neglected aspect of hunter gatherer adaptation and the varied environments within which they live Indigenous Peoples and Tropical Biodiversity Rodolfo Tello, 2015-02-20 Achieving conservation and development is a challenging endeavor particularly when we do not have the tools to develop a clear understanding of the relationship between indigenous communities and tropical biodiversity This book provides elements that are crucial to understanding the changing nature of indigenous environmental behavior
