Musical Theatre Colleen Rua,2023-08-11 This study positions four musicals and their associated artists as mobilizers of defiant joy in relation to trauma and healing in Puerto Rico This book argues that the historical trajectory of these musicals has formed a canon of works that have reiterated resisted or transformed experiences of trauma through linguistic ritual and geographic interventions These traumas may be disaster related migrant related colonial or patriarchal Bilingualism and translation ritual action and geographic space engage moments of trauma natural disaster incarceration death and healing community celebration grieving emancipation in these works The musicals considered are West Side Story 1957 2009 2019 The Capeman 1998 In the Heights 2008 and Hamilton 2015 Central to this argument is that each of the musicals discussed is tied to Puerto Rico either through the representation of Puerto Rican characters and stories or through the Puerto Rican positionality of its creators The author moves beyond the musicals to consider Lin Manuel Miranda as an embodied site of healing that has been met with controversy as well as post Hurricane Maria relief efforts led by Miranda on the island and from a distance In each of the works discussed acts of belonging shape notions of survivorship and witness This book also opens a dialogue between these musicals and the work of island based artists Y no hab a luz that has served as sites of first response to disaster This book will be of interest to students and scholars in Latinx Theatre Musical Theatre and Translation studies

nourishment safety and productivity When affordability threatens energy's availability a family's living situation can become untenable too cold too hot too dark and too often unhealthy and unsafe In *Powerless* sociologists Diana Hernandez and Jennifer Laird reveal the hidden hardship of energy insecurity the inability to adequately meet household energy needs Approximately one in ten households in the U S are energy insecure and four in ten are at risk for energy insecurity These statistics alone do not convey the acute pain of utility shutoffs or the relentless toll of chronic energy hardships marked by difficult choices and harsh living conditions Drawing on survey data and interviews with one hundred energy insecure individuals and families Hernandez and Laird detail the experience of energy insecurity Individuals and families suffering from energy insecurity endure economic hardships such as difficulty paying utility bills utility debt and disconnection from utility services They also struggle with physical challenges such as poor housing conditions and poor or dysfunctional heating and cooling systems They are often forced to make difficult choices about what bills to pay These decisions are sometimes referred to as heat or eat choices as families cannot afford to pay for heating and food at the same time Energy insecure individuals and families employ a variety of strategies to keep energy costs down to avoid having to make these hard choices This includes deliberate underconsumption of energy enduring physical discomfort and using dangerous alternatives such as open flames ovens or space heaters to try to maintain a comfortable temperature in their home To be energy insecure is to suffer Despite the heavy toll of energy insecurity most people confront these difficulties behind closed doors believing it is a private matter Thus the enormous social crisis of energy insecurity goes unnoticed Hernandez and Laird argue that household energy is a basic human right and detail policies and practices that would expand access to consistent safe clean and affordable energy Their proposals include improving the current energy safety net which is limited and often does not serve the most energy insecure due to stringent program requirements and administrative burdens They also suggest redesigning rates to accommodate income promoting enrollment and expansion of discount programs reforming utility disconnection policies improving energy literacy and ensuring an equitable shift to renewable energy resources *Powerless* creates a comprehensive picture of the complex social and environmental issue of energy insecurity and shows how energy equity is not just an aspiration but an achievable reality

The Cuban Image Michael Chanan, 1985 *Voyage of the Damned* Gordon Thomas, Max Morgan-Witts, 2014-07-01 The extraordinary true story of the St Louis a German ship that in 1939 carried Jews away from Hamburg and into an unimaginable ordeal The New York Times On May 13 1939 the luxury liner St Louis sailed from Hamburg one of the last ships to leave Nazi Germany before World War II erupted Aboard were 937 Jews some had already been in concentration camps who believed they had bought visas to enter Cuba The voyage of the damned had begun Before the St Louis was halfway across the Atlantic a power struggle ensued between the corrupt Cuban immigration minister who issued the visas and his superior President Bru The outcome The refugees would not be allowed to land in Cuba In America the Brown Shirts were holding Nazi rallies in Madison Square Garden anti Semitic Father Coughlin

had an audience of fifteen million Back in Germany plans were being laid to implement the final solution And aboard the St Louis 937 refugees awaited the decision that would determine their fate Gordon Thomas and Max Morgan Witts have re created history in this meticulous reconstruction of the voyage of the St Louis Every word of their account is true the German High Command s ulterior motive in granting permission for the mission of mercy the confrontations between the refugees and the German crewmen the suicide attempts among the passengers and the attitudes of those who might have averted the catastrophe but didn t In reviewing the work the New York Times was unequivocal An extraordinary human document and a suspense story that is hard to put down But it is more than that It is a modern allegory in which the SS St Louis becomes a symbol of the SS Planet Earth In this larger sense the book serves a greater purpose than mere drama **Cyclone 1878**
