

A woman with dark skin and hair, wearing a beige top and blue pants, is waving her right hand. She is standing on a red triangle. Surrounding her are several icons: a thumbs up in a blue circle, a green hexagon, a blue hexagon with a yellow star, a purple hexagon, and a white triangle with a gold trophy. Radiating lines emanate from the top of her head.

Macroplanification en enseignement : Principes, concepts et critères Catinca Adriana Stan, Helena Boublil-Ekimova, 2018-09-05T00:00:00-04:00 La compétence professionnelle de la planification long terme ne relève pas seulement d'un ensemble restreint de techniques aisément cernables mais se développe progressivement travers un large répertoire de situations de formation. Longtemps comprise comme objet de description ou de prescription, elle s'avère une compétence développer dès la formation initiale. Cette macroplanification augmente la qualité et la clarté de l'enseignement puisqu'elle s'appuie sur des fondements théoriques qui permettent le découpage cohérent des objets de connaissance tout en prenant en compte la complexité de l'enseignement, lient notamment la durée. En réunissant des participants du milieu universitaire et des milieux de pratique, cet ouvrage donne accès divers modèles de planification dans des disciplines aussi variées que le français, l'anglais, les mathématiques, l'univers social, la littérature, les sciences, mais également des modèles de planification liés aux technologies de l'information et de la communication. TIC la communication avec les parents ou l'éducation non formelle.

Forum, 1990

Expressive Techniques AA.VV., 2015-02-04 This workbook aims at examining and practicing different writing techniques working on different text types which mostly appear here in the form of articles, letters and brochures. Prior to the proper use of a writing technique, it is important both to recognize the purpose of the source text and to clarify the predominant function that the text vehicles. With regard to this, a complex but practical analysis is provided by Jakobson's model of communication which explains communication by means of six factors and related communicative functions.

TBLT as a Researched Pedagogy Virginia Samuda, Kris Van den Branden, Martin Bygate, 2018-10-15 Bringing together experienced classroom researchers and teacher educators from different countries where tasks are playing an influential role in language education, this collected volume critically explores how TBLT research can engage with pedagogy and how TBLT pedagogy can engage with research. A defining part of the TBLT project has always been a dual concern both with the nature and use of tasks in language teaching and with empirical research to guide and support classroom practitioners. The two concerns suggesting a central and reciprocal relationship between research and pedagogy. However, this relationship has at times been unbalanced and its

centrality has sometimes gone by default problems which this volume aims to address The introduction proposes criteria to improve the congruence between the research base of TBLT and the concerns and terms of reference of classroom practitioners Using a range of methodologies the individual chapters illustrate and explore different aspects of this theme The book will be of interest to all those wishing to further their understanding of and or investigate the use of TBLT in educational contexts *Peace Corps Times* ,1989 **Peace Corps Times** Peace Corps (U.S.),1990 El-Hi Textbooks & Serials in Print, 2000 ,2000
