on interviews and observations to take the reader from the backstreets of the squatters camps to international militant circles and from the immediate infra political level to the worldwide anti capitalist protest movement He investigates the mechanisms and the meaning of social discontent in light of several different phenomena These include the struggle of the poor to gain recognition the persistent memory of the fight against apartheid the developments in the political world since the Mandela Years the coexistence of liberal democracy with a popular politics found in poor and working class districts and many other factors that have played a crucial part in the social and political tensions at the heart of post apartheid South Africa
