SERVICE LETTER

TO: Owners, Operators and Aircraft Engine Maintenance Personnel

Service Letter No. L156
September 11, 1964

SUBJECT: Surplus O-290-G Series Power Plant Engines

Gentlemen:

Occasionally we receive inquiries regarding conversion of the subject engines for aircraft use, or use of parts from these engines for replacement in Lycoming aircraft engines.

The O-290-G series engines were designed and built specifically for ground power applications. Although many of the parts are identical to parts used in similar aircraft engines, it is also true that many of the parts do not qualify for aircraft standards of design, materials, and manufacturing processes. Consequently, these engines are not approved for use in certificated aircraft.

The Federal Aviation Agency, in Flight Standards Service Release No. 462, has listed the O-290-G engine parts that may and may not be used for replacement purposes in Lycoming aircraft engines. Parts not included in this list, such as crankshaft and cylinders, are not interchangeable with those of any aircraft engine.

These engines were built for the United States Military Service for use in motor-generator sets, and maintenance data for their support was published by the USAF as technical orders, No. 38G2-40-13 Overhaul Instructions, and No. 38G2-40-14, Illustrated Parts Catalog. We do not have a supply of any of these publications.

The FAA Release No. 462 is reprinted herewith.

FAA RELEASE NUMBER 462, 462

SUBJECT: Eligibility of Lycoming O-290-G Ground Power Unit Engine Parts for Use in Certificated Aircraft O-290-G Aircraft Engines

It has been determined from an engine parts interchangeability study conducted in cooperation with the engine manufacturer that some O-290-G ground power unit engine parts are identical to parts used in certificated O-290-G aircraft engines. Those O-290-G ground power unit parts listed in the attached tabulation were produced to a Federal Aviation Agency approved design under an aircraft quality control system. These parts are considered eligible for use in O-290-G certificated aircraft engines under the following conditions:

1. The O-290-G ground power unit parts, or parts which have been converted to the specifications herein, are eligible for use in O-290-G engines provided they meet the inspection standards required by the overhaul manual for the O-290-G engine.
2. Parts, other than those listed by an authority, which have a record of operation in an O-290-G engine, in addition to the specifications herein, are eligible for use in O-290-G engines provided they are converted to standards required by the overhaul manual for the O-290-G engine.
3. Parts described by an authority, which have a record of operation in an O-290-G engine, in addition to the production markings, are considered acceptable for use in O-290-G engines.
