From Wallflowers to Bulletproof Families Abbye E. Meyer, 2022-02-04 Uses of disability in literature are often problematic and harmful to disabled people. This is also true of course in children's and young adult literature but interestingly when disability is paired and confused with adolescence in narratives compelling complex arcs often arise. In *From Wallflowers to Bulletproof Families: The Power of Disability in Young Adult Narratives* author Abbye E. Meyer examines different ways authors use and portray disability in literature. She demonstrates how narratives about and for young adults differ from the norm. With a distinctive young adult voice based in disability, these narratives allow for readings that conflate and complicate both adolescence and disability. Throughout Meyer examines common representations of disability and more importantly the ways that young adult narratives expose these tropes and explicitly challenge harmful messages they might otherwise reinforce. She illustrates how two-dimensional characters allow literary metaphors to work while forcing texts to ignore reality and reinforce the assumption that disability is a problem to be fixed. She sifts the freak characters often marked as disabled and she reclaims the derided genre of problem novels, arguing they empower disabled characters and introduce the goals of disability rights movements. The analysis offered expands to include narratives in other media: nonfiction, essays, and memoirs, songs, television series, films, and digital narratives. These contemporary works, affected by digital media, combine elements of literary criticism, narrative expression, disability theory, and political activism to create and represent the solidarity of family-like communities.

Are They Really Reading? Jodi Crum Marshall, 2002 All too often the poorest readers learn that if they keep quiet during sustained silent reading (SSR) they're doing okay: no reading required. This is especially true in middle school where class sizes are large and instructional emphasis is on content rather than reading. In *Are They Really Reading?* Jodi Crum Marshall discusses how to find out if your students are using SSR time wisely and what to do about it if they're not. Her book describes how to support middle-grade readers who need it the most while embracing a research-proven need to increase independent self-selected reading time for students. Jodi shares lessons and anecdotes from her classroom and from her experience as a reading specialist implementing her model schoolwide. She expands the traditional concepts of SSR to include read-alouds, writing, and accountability to scaffold struggling middle-grade students. Bolstered by these additional supports, Jodi's students dramatically increased their interest and ability in reading through a program they named Supporting Student Literacy (SSL). Classroom teachers will appreciate the clear direction on how and why to implement an SSR program. Administrators will appreciate the guidance for establishing a schoolwide literacy block that substantially improves student motivation and learning. *Are They Really Reading?* answers the following important questions: Why should I start an SSR program? How do I build a classroom library? Where do I get funding for books and other materials? How do I prepare the students for SSR? How do I motivate students to read? What is the role of the teacher? How do I assess SSR? If you don't currently use a sustained silent reading program, this book will help you get started.

on the right track If you worry that some of your students aren't really reading during SSR or if you want to enhance your program here is a roadmap that is instructionally sound and flexible enough to fit your students' needs
