*Campus Life* Helen Lefkowitz Horowitz, 2013-09-04 Every generation of college students no matter how different from its predecessor has been an enigma to faculty and administration to parents and to society in general Watching today s students holding themselves in because they had to get A s not only on tests but on deans reports and recommendations Helen Lefkowitz Horowitz author of the highly praised Alma Mater began to ask What has gone wrong how did we get where we are today Campus Life is the result of her search through college studies alumni autobiographies and among students themselves for an answer She

begins in the post revolutionary years when the peculiarly American form of college was born forced in the student faculty warfare in 1800 pleasure seeking Princeton students angered by disciplinary action show pistols and rolled barrels filled with stones along the hallways She looks deeply into the campus through the next two centuries to show us student society as revealed and reflected in the students own codes of behavior in the clubs social and intellectual in athletics in student publications and in student government And we begin to notice for the first time from earliest days till now younger men and later young women as well have entered not a monolithic student body but a complex world containing three distinct sub cultures We see how from the beginning some undergraduates have resisted the ritualized frivolity and rowdiness of the group she calls College Men For the second group the Outsiders college was not so much a matter of secret societies passionate team spirit and college patriotism as a serious preparation for a profession and over the decades their ranks were joined by ambitious youths from all over rural America by the first college women by immigrants Jews townies blacks veterans and older women beginning or continuing their education We watch a third subculture of Rebels both men and women emerging in the early twentieth century transforming individual dissent into collective rebellion contending for control of collegiate politics and press and eventually in the 1960s reordering the whole college university world Yet Horowitz demonstrates in spite of the tumultuous 1960s in spite of the vast changes since the nineteenth century the ways in which undergraduates work and play have continued to be shaped by whichever of the three competing subcultures college men and women outsiders and rebels is in control We see today s campus as dominated by the new breed of outsiders they began to surface in the 1970s driven to pursue their future careers with a grim professionalism And as faint and sporadic signs emerge of perhaps a new activism and a new attraction to learning for its own sake we find that Helen Lefkowitz Horowitz has given us in this study a basis for anticipated the possible nature of the next campus generation

*Black Campus Life* Antar A. Tichavakunda, 2021-12-01 An in depth ethnography of Black engineering students at a historically White institution *Black Campus Life* examines the intersection of two crises up close the limited number of college graduates in science technology engineering and math STEM fields and the state of race relations in higher education Antar Tichavakunda takes readers across campus from study groups to parties and beyond as these students work hard have fun skip class fundraise and at times find themselves in tense racialized encounters By consistently centering their perspectives and demonstrating how different campus communities or social worlds shape their experiences Tichavakunda challenges assumptions about not only Black STEM majors but also Black students and the racial climate on college campuses more generally Most fundamentally *Black Campus Life* argues that Black collegians are more than the racism they endure By studying and appreciating the everyday richness and complexity of their experiences we all faculty administrators parents policymakers and the broader public might learn how to better support them This book is freely available in an open access edition thanks to TOME Toward an Open Monograph Ecosystem a collaboration of the Association of American Universities
