**HP Service Manager a Complete Guide - 2019 Edition** Gerardus Blokdyk, 2019-03-18 Why do many organizations stumble or fail in initial attempts at implementing ITSM practices and why won't you? Are service levels consistent with the business requirements? How are the SLOs measured? What are you doing to proactively prevent and eliminate problems and business impact? Will you be eligible for ISO/IEC 20000 certification even if your Service Desk infrastructure management and applications management functions are located in different countries? Defining, designing, creating and implementing a process to solve a challenge or meet an objective is the most valuable role. In EVERY group, company, organization and department. Unless you are talking about a one-time single use project, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, "What are you really trying to accomplish here?" And is there a different way to look at it? This Self Assessment empowers people to do just that, whether their title is entrepreneur, manager, consultant, Vice President, CxO, etc. They are the people who rule the future. They are the person who asks the right questions to make HP Service Manager investments work better. This HP Service Manager All Inclusive Self Assessment enables you to be that person.
