Humeurs De Paris:

Bulletins Et Mémoires de la Société Médicale Des Hôpitaux de Paris, 1899 The Fabric of Space Matthew Gandy, 2014-11-07 A study of water at the intersection of landscape and infrastructure in Paris Berlin Lagos Mumbai Los Angeles and London Water lies at the intersection of landscape and infrastructure crossing between visible and invisible domains of urban space in the tanks and buckets of the global South and the vast subterranean technological networks of the global North In this book Matthew Gandy considers the cultural and material significance of water through the experiences of six cities Paris Berlin Lagos Mumbai Los Angeles and London Tracing the evolving relationships among modernity nature and the urban imagination from different vantage points and through different periods Gandy uses water as a lens through which to observe both the ambiguities and the limits of nature as conventionally understood Gandy begins with the Parisian sewers of the nineteenth century captured in the photographs of Nadar and the reconstruction of subterranean Paris He moves on to Weimar era Berlin and its protection of public access to lakes for swimming the culmination of efforts to reconnect the city with nature He considers the threat of malaria in Lagos where changing geopolitical circumstances led to large scale swamp drainage in the 1940s He shows how the dysfunctional water infrastructure of Mumbai offers a vivid expression of persistent social inequality in a postcolonial city He explores the incongruous concrete landscapes of the Los Angeles River Finally Gandy uses the fictional scenario of a partially submerged London as the starting point for an investigation of the actual hydrological threats facing that city *Urban History* 19:2 Kajal Lahiri, Geoffrey H. Lahiri, 1992-12-10 *Catalogue* Maggs Bros, 1916 *The Cambridge Companion to Hippocrates* Peter E. Pormann, 2018-11-08 Hippocrates is a towering figure in Greek medicine Dubbed the father of medicine he has inspired generations of physicians over millennia in both the East and West Despite this little is known about him and scholars have long debated his relationship to the works attributed to him in the so called Hippocratic Corpus although it is undisputed that many of the works within it represent milestones in the development of Western medicine In this Companion an international team of authors introduces major themes in Hippocratic studies ranging from textual criticism and the Hippocratic question to problems such as aetiology physiology and nosology Emphasis is given to the afterlife of Hippocrates from Late Antiquity to the modern period Hippocrates had as much relevance in the fifth century BC Greek world as in the medieval Islamic world and he remains with us today in both medical and non medical contexts **Catalogue of the San Francisco Free Public Library** San Francisco Public Library, 1889 Supplementary Catalogue of Books Added to the San Francisco Free Public Library Since May, 1884. Austin, 2013-08-28 Proust Pastiche and the Postmodern or Why Style Matters argues against the traditional view that Marcel Proust wrote pastiches that is texts that imitate the style of another author to master his literary

predecessors while sharpening his writerly quill On the contrary James F Austin demonstrates that Proust's oeuvre and *In Search of Lost Time* in particular deploy pastiche to other ends Proust's pastiches in fact do things with words to create powerful real world effects His works are indeed performative acts that forge social relationships redefine our ideas of literature and even work against oppressive political and economic discourses Building on the speech act theory of J L Austin Jacques Derrida and J Hillis Miller and on the postmodern theory of Fredric Jameson this book not only elucidates the performative nature of pastiche but also shows that the famous Goncourt pastiche from *In Search of Lost Time* has attracted so much attention because it already attained the postmodern that is it eliminated temporal depth and experience transforming time itself into a nostalgic style of an era and into the sort of aestheticized surface that came to define postmodernism decades later To reflect this transformation of pastiche this work rearticulates its history in France around Proust Reconfiguring a scholastic classically inspired pedagogical tradition based on imitation and breaking with the dominant satirical practice Proust's work opened up possibilities in the twentieth century for a new kind of pastiche playful and performative in the literary field and postmodern in a French cinema that as with the Goncourt pastiche represents time as the visual style of an era whether unreflexively in heritage films such as Régis Wargnier's *Indochine* or discerningly in Eric Rohmer's *Lady and the Duke* which uses period pictorial and painterly conventions to illustrate how the representation of history onscreen typically flattens time into style

Department of Printed Books,1889 History Of Male Infertility And Its Surgical Treatment: Historical Essays (In 2 Volumes) Yefim R Sheynkin,2025-01-10 Infertility in men has been a longstanding issue throughout history In the past infertility was commonly thought to be solely the fault of females while the complex history of male infertility was often overlooked Currently there is limited literature on the subject with only a few review articles and introductory chapters in textbooks or specialized books discussing the clinical features of male infertility but failing to address its historical societal cultural political and philosophical implications This book aims to fill this gap and offer readers a comprehensive historical perspective on the development of male infertility into a clinical entity
