User's Manual for the Generalized Computer Program System William A. Thomas,William H. McAnally,1985 **A Procedure for Assessing and Planning Nighttime Highway Construction and Maintenance** James E. Bryden,Douglas J. Mace,2002 **Manual of Transportation Engineering Studies** H. Douglas Robertson,Institute of Transportation Engineers,1994 The primary focus of the manual is on how to conduct transportation engineering studies in the field Each chapter introduces the type of study and describes the methods of data collection the types of equipment used the personnel and level of training needed the amount of data required the procedures to follow and the techniques available to reduce and analyze the data Applications of the collected data or information are discussed only briefly The focus is on planning the study preparing for field data collection executing the data collection plan and reducing and analyzing of the data Guidelines for both oral and written presentation of study results are offered Instruction Report HL ,1985 **Report** ,2002

Monitoring Vertebrate Populations William L. Thompson,Gary C. White,Charles Gowan,1998-08-17 This book is written to serve as a general reference for biologists and resource managers with relatively little statistical training It focuses on both basic concepts and practical applications to provide professionals with the tools needed to assess monitoring methods that can detect trends in populations It combines classical finite population sampling designs with population enumeration procedures in a unified approach for obtaining abundance estimates for species of interest The statistical information is presented in practical easy to understand terminology Presented in practical easy to understand terminology Serves as a general reference for biologists and resource managers Provides the tools needed to detect trends in populations Introduces a unified approach for obtaining abundance estimates **Geospatial Technologies and Homeland Security** Daniel Sui,2008-05-25 Homeland security and context In the Geographical Dimensions of Terrorism GDOT Cutter et al 2003 the first book after 9 11 to address homeland security and geography we developed several thematic research agendas and explored intersections between geographic research and the importance of context both geographical and political in relationship to the concepts of terrorism and security It is good to see that a great deal of new thought and research continues to flow from that initial research agenda as illustrated by many of the papers of this new book entitled Geospatial Technologies and Homeland Security Research Frontiers and Future Challenges Context is relevant not only to understanding homeland security issues broadly but also to the conduct of research on geospatial technologies It is impossible to understand the implications of a homeland security strategy let alone hope to make predictions conduct meaningful modeling and research or assess the value and dangers of geospatial technologies without consideration of overarching political social economic and geographic contexts within which these questions are posed **Scientific and Technical Aerospace Reports** ,1991
