

## Assembling the Wand

1. The upper wand, sheath and cord have been preassembled at the factory.

2. To complete assembly, insert the lower wand, large end first, into sheath from the bottom until the latch (A) engages.

3. Disassemble as shown by pressing the release button and pull lower wand from sheath.

## Using the ON/OFF Power Nozzle Switch

You can use your Omni-flo Automatic Carpet and Floor Power Nozzle for just about every kind of dry floor cleaning. Go right from the carpeted living room to the vinyl-covered playroom or tile-floored foyer. The Power Nozzle's self-adjusting action adapts to different carpet heights as well as hard surface floors. It will maneuver around furniture and right up to the wall, providing superior edge cleaning and two-sided corner cleaning. You'll find that you're cleaning the floors of each room better, faster, and more easily than ever before.

The switch on you Carpet and Floor Power Nozzle has three positions:

- When you set the switch ON "I", the high speed brush will rotate, digging up embedded grit from your carpets and whisking up dust and dirt from your hard surfaced floors. You will probably leave the switch ON "I" for most of your cleaning.
- If you have delicate antique rugs or a highly polished parquet floor, you should stop the brush action and use the cleaner's suction only to clean these special areas. To stop the brush, set the switch to OFF "O".
- If an object clogs your power nozzle, the Power Nozzle will stop automatically. See instructions "How to Restart the Power Nozzle." After removing the object according to instructions, you will slide the switch to RESET "II" and release.

### How to restart the Omni-flo Automatic® Carpet and Floor Power Nozzle attachment

If an object clogs the attachment, unplug power nozzle cord, detach wand, and remove object through elbow. To restart, replace wand, replug cord and slide switch forward to RESET and release.
