Electromagnetic Metrology, 1975 Electromagnetic Modelling and Measurements for Analysis and Synthesis Problems B. de Neumann, 2012-12-06 In this volume is presented the proceedings of a NATO Advanced Study Institute ASI on the theme of Electromagnetic Modelling and Measurements for Analysis and Synthesis Problems The ASI was held at 11 Ciocco Castelvecchio Pascoli Tuscany Italy August 10th 21st 1987 It has been my good fortune to act as co director of two of Jozef's previous ASIs and so I am well acquainted with the JKS format for ASIs As participants will realise I did not attend this ASI and so I only have a partial appreciation of the programme In particular it has not been possible to include transcripts of any panel discussions which may have taken place Readers may recall that such transcripts have formed a most interesting and useful part of previous ASI proceedings edited by Jozef Skwirzynski and helped to convey the spirit of the meetings Unfortunately it has proved impossible to locate the

tapes despite the best efforts of Jozef's assistant Barry Stuart. A further difficulty has arisen through the untimely death of Jozef's former deputy and colleague at GEC Research Ed Pacello who assisted Jozef with the organisation of the precursor of this ASI. The following is taken from original material relating to the aims of the Advanced Study Institute.

PURPOSE OF THE INSTITUTE This Institute is concerned with computer modelling and with experimental measurements as two complementary tools for both analysis and synthesis of electromagnetics. EM infra red IR and optical problems.
