The Sleuth Book for Genealogists Emily Anne Croom, 2009-12 Originally published Cincinnati Ohio Betterway Books 2000 [Dining Room Detectives](#) Silvia Bauckova, 2015-09-04 In the structuralist understanding as proposed by John G Cawelti a classical detective novel is defined as a formula which contains prescribed elements and develops in a predefined ritualistic manner When described in this way the crime fiction formula very closely resembles a recipe when one cooks they also add prescribed ingredients in a predefined way in order to produce the final dish This surprising parallel serves as the starting

point for this book's analysis of classical detective novels by Agatha Christie Here a structuralist approach to Golden Age crime fiction is complemented by methodology developed in the field of food studies in order to demonstrate the twofold role that food plays in Christie's novels namely its function as an element of the formula a literary device but also as a cultural sign Christie employed food on various different levels of her stories in order to portray characters construct plots and depict settings What is more incorporating domesticity and food in her novels helped her fundamentally alter the rigid conventions of the crime fiction genre as it developed in the nineteenth century and enabled her to successfully introduce the character of the female detective and to feminise the detective novel as such
