colleagues The discussion section of the book includes important examples of concealment within the Chinese state hierarchy as well as by leading epidemiologists and governments in the West during the novel coronavirus outbreak in Wuhan in 2019 2020 The full picture of the very early stage of the COVID 19 pandemic remains unclear and further research is obviously needed to better understand what motivated some municipal provincial and national officials in China as well as Western counterparts to obfuscate facts in their internal communications about many issues associated with the outbreak
