Emotions And Belief:

Emotions and Beliefs Nico H. Frijda, Antony S. R. Manstead, Sacha Bem, 2000-10-12 Looks at the different ways in which emotions influence beliefs Emotions and Beliefs Nico H. Frijda, Antony S. R. Manstead, Sacha Bem, 2000-10-12 Few people would question nowadays that emotions influence beliefs but until recently little scientific research has been done on exactly how this effect takes place This important new book with contributions from some of the leading figures in the study of emotion explores the relationship between emotions and beliefs from a number of different psychological perspectives Combining theory with research it seeks to develop coherent theoretical principles for understanding how emotions influence the content and strength of an individual's beliefs and their resistance or openness to modification **Belief as Emotion** Miriam Schleifer McCormick, 2024-10-31 Belief as Emotion argues that belief is a type of emotion where emotions are understood as irreducibly blended states that transcend the cognitive non cognitive divide containing representational motivational and phenomenological elements On this view to believe is to feel that the way one represents the world is accurate and this feeling is a kind of evaluation This view helps explain a number of puzzling phenomena in epistemology philosophy of mind philosophy of action and philosophy of religion Further thinking of beliefs as emotions helps us to understand the ethics of belief It offers a better understanding of what are sometimes called edge cases of beliefs ones that seem belief like but that are hard to fit into most standard pictures of belief These include delusions religious and political attitudes and belief in the context of trust Given their complicated relationship to evidence and action many theorists claim that such attitudes should not be categorized as beliefs but as a different mental state Belief as Emotion does not force us to exclude states as real beliefs that we pre reflectively think of as beliefs and that does not require us to outsource the work belief seems to do to other mental states The view also illuminates the phenomena of self deception implicit bias and deep disagreement Ideal emotional maintenance is complex thinking of beliefs as emotions acknowledges and embraces this complexity of our doxastic lives **Emotion and Reasoning** Isabelle Blanchette, 2013-10-01 The interaction between emotion and cognition is a fundamental issue which has only recently been reintroduced as a legitimate object of study in experimental psychology This book examines the significant impact that affective processes have on reasoning and demonstrates how emotional reasoning cannot simply be equated with faulty reasoning Emotion and Reasoning presents contributions from leading researchers from a variety of disciplines including experimental cognitive psychology cognitive neuroscience clinical neuropsychology and experimental psychopathology The opening chapters consider how emotions affect reasoning processes in individuals living with psychopathology A second section focuses upon experimental investigations of emotion and basic reasoning processes and a final section explores the physiological bases of emotion reasoning interaction Together the chapters in this volume provide a multidisciplinary overview of key topics on emotion and reasoning and a survey of recent research in this area Emotion and Reasoning will be of great interest to advanced students

researchers and practitioners in the fields of cognitive psychology clinical psychology and affective neuroscience The Emotions Julien A. Deonna, Fabrice Teroni, 2012 The emotions are at the centre of our lives and for better or worse imbue them with much of their significance The philosophical problems stirred up by the existence of the emotions over which many great philosophers of the past have laboured revolve around attempts to understand what this significance amounts to Are emotions feelings thoughts or experiences If they are experiences what are they experiences of Are emotions rational In what sense do emotions give meaning to what surrounds us The Emotions A Philosophical Introduction introduces and explores these questions in a clear and accessible way The authors discuss the following key topics the diversity and unity of the emotions the relations between emotion belief and desire the nature of values the relations between emotions and perceptions emotions viewed as evaluative attitudes the link between emotions and evaluative knowledge the nature of moods sentiments and character traits Including chapter summaries and guides to further reading The Emotions A Philosophical Introduction is an ideal starting point for any philosopher or student studying the emotions It will also be of interest to those in related disciplines such as psychology and the social sciences The Emotions Julien Deonna, Fabrice Teroni, 2012-11-12 The emotions are at the centre of our lives and for better or worse imbue them with much of their significance The philosophical problems stirred up by the existence of the emotions over which many great philosophers of the past have laboured revolve around attempts to understand what this significance amounts to Are emotions feelings thoughts or experiences If they are experiences what are they experiences of Are emotions rational In what sense do emotions give meaning to what surrounds us The Emotions A Philosophical Introduction introduces and explores these questions in a clear and accessible way The authors discuss the following key topics the diversity and unity of the emotions the relations between emotion belief and desire the nature of values the relations between emotions and perceptions emotions viewed as evaluative attitudes the link between emotions and evaluative knowledge the nature of moods sentiments and character traits Including chapter summaries and guides to further reading The Emotions A Philosophical Introduction is an ideal starting point for any philosopher or student studying the emotions It will also be of interest to those in related disciplines such as psychology and the social sciences *The Emotions* O.H Green, 2012-12-06 Philosophical theories of emotions and to an extent some theories of scientific psychology represent attempts to capture the essence of emotions basically as they are conceived in common sense psychology Although there are problems the success of explanations of our behavior in terms of beliefs desires and emotions creates a presumption that at some level of abstraction they reflect important elements in our psychological nature It is incumbent on a theory of emotions to provide an account of two salient facts about emotions as conceived in common sense psychology As intentional states emotions have representational and rational properties emotions represent states of affairs and they are rationally related to other mental representations figure in rational explanations of behavior and are open to rational assessment Emotions also have a close relationship to a range of

non intentional phenomena in typical cases emotions involve physiological changes usually associated with the activation of the autonomic nervous system which are proprioceptively experienced and they often involve behavioral tendencies as well

Dynamics Of Crowd-minds: Patterns Of Irrationality In Emotions, Beliefs And Actions Andrew Adamatzky, 2005-05-30 A crowd mind emerges when formation of a crowd causes fusion of individual minds into one collective mind Members of the crowd lose their individuality The deindividuation leads to derationalization emotional impulsive and irrational behavior self catalytic activities memory impairment perceptual distortion hyper responsiveness and distortion of traditional forms and structures This book presents unique results of computational studies on cognitive and affective space time processes in large scale collectives of abstract agents being far from mental equilibrium Computational experiments demonstrate that the irrational and nonsensical behavior of individual entities of crowd mind results in complex rich and non trivial spatio temporal dynamics of the agent collectives Mathematical methods employ theory and techniques of cellular automata and lattice swarms applied algebra theory of finite automata and Markov chains and elementary differential equations

Justifying Emotions Kristjan Kristjansson, 2003-08-27 The two central emotions of pride and jealousy have long been held to have no role in moral judgements and have been a source of controversy in both ethics and moral psychology Kristjan Kristjansson challenges this common view and argues that emotions are central to moral excellence and that both pride and jealousy are indeed ingredients of a well rounded virtuous life

Emotions in Reading, Learning, and Communication

Catherine Bohn-Gettler, Johanna Kaakinen, 2024-08-16 This book brings together experts engaging in empirical studies on how emotion influences learning and processing for varying text types in different contexts In our current era learners are confronted with many and varying sources of information such as news media books websites social media scientific articles communicative interactions and more In addition individuals must learn from such sources making it important to critically examine the factors underlying learning from text and discourse Importantly the valence pleasantness and activation intensity of learners emotions can influence the quality of processing which could help or hinder the learner's ability to understand and learn from text The chapters included in this book work toward developing a more comprehensive understanding of the influence of emotions in supporting learning comprehension processing and conceptual change to draw important connections to the broader fields of text and discourse learning and motivation This is an important and illuminating read for students and scholars of psychology education and educational technology The chapters in this book were originally published as a special issue of *Discourse Processes*
