transformative journeys of discovery **Christians and the Middle East Conflict** Paul Rowe, John Dyck, Jens Zimmermann, 2014-06-20 Christians and the Middle East Conflict deals with the relationship of Christians and Christian theology to the various conflicts in the Middle East a topic that is often sensationalized but still insufficiently understood Political developments over the last two decades however have prompted observers to rediscover and examine the central role religious motivations play in shaping public discourses This book proceeds on the assumption that neither a focus on the eschatological nor a narrow understanding of the plight of Christians in the Middle East is sufficient Instead it is necessary to understand Christians in context and to explore the ways that Christian theology applies through the actions of Christians who have lived and continue to live through conflict in the region either as native inhabitants or interested foreign observers This volume addresses issues of concern to Christians from a theological perspective from the perspective of Christian responses to conflict throughout history and in reflection on the contemporary realities of Christians in the Middle East The essays in this volume combine contextual political and theological reflections written by both scholars and Christian activists and will be of interest to students and scholars of Politics Religion and Middle East Studies *A Century of Crisis and Conflict in the International System* Michael Brecher, 2017-07-25 This book is designed to present a fully developed theory of international crisis and conflict along with substantial evidence of these two closely related phenomena The book begins with a discussion of these topics at a theoretical level defining and elaborating on core concepts international crisis interstate conflict severity and impact This is followed by a discussion of the international system along with two significant illustrations the Berlin Blockade crisis 1948 and the India Pakistan crisis over Kashmir 1965-66 The book then presents a unified model of crisis focusing on the four phases of an international crisis which incorporate the four periods of foreign policy crises for individual states Findings from thirteen conflicts representing six regional clusters are then analyzed concluding with a set of hypotheses and evidence on conflict onset persistence and resolution **Arab Intellectuals and American Power** M.D. Walhout, 2020-10-01 Edward Said the famous Palestinian American scholar and activist was one of the twentieth century's most iconic public intellectuals whose pioneering and to some controversial work on Orientalism shaped Middle Eastern and postcolonial studies and beyond But how exactly did he arrive at his famous maxim to speak truth to power This dual biographical study examines the lives of Edward Said and the eminent Lebanese philosopher and diplomat Charles Malik a distant relative 30 years his senior whom Said knew from childhood as Uncle Charles To Said Malik was no ordinary relative in his memoir he called Malik the great negative intellectual lesson of my life and was to describe him as an ideal as I was growing up only to later claim Malik went through an ugly transformation that I could never come to terms with M D Walhout charts the development of these two remarkable figures reconstructing in the process the way in which American power in the Middle East came to have a defining effect on Arab intellectuals in the twentieth century Exploring issues of religion and nationalism Walhout shows how Said came to reject much of what Malik stood for Christian faith

hardline anti Communism and the benign nature of American power He argues that the example of Malik was instrumental in the development of Said s later belief that the true vocation of the intellectual was not to compromise with power but to resist it *The Rule of the Clan* Mark S. Weiner,2013-03-12 A revealing look at the role kin based societies have played throughout history and around the world It examines the constitutional principles and cultural institutions from medieval Iceland to modern Pakistan *Marxist Historiographies* Q. Edward Wang,Georg G. Iggers,2015-07-16 Marxist Historiographies is the first book to examine the ebb and flow of Marxist historiography from a global and cross cultural perspective Since the eighteenth century few schools of historical thought have exerted a more lasting impact than Marxism and this impact extends far beyond the Western world within which it is most commonly analysed Edited by two highly respected authors in the field this book deals with the effect of Marxism on historical writings not only in parts of Europe where it originated but also in countries and regions in Africa Asia North and South America and the Middle East Rather than presenting the chapters geographically it is structured with respect to how Marxist influence was shown in the works of historians in a particular area This title takes a dual approach to the subject some chapters are national in scope addressing the Marxist impact on historical practices within a country whereas others deal with the varied expressions of Marxist historiography throughout a wider region Taking a truly global perspective on this topic Marxist Historiographies demonstrates clearly the breadth and depth of Marxism s influence in historical writing throughout the world and is essential reading for all students of historiography **Globalization and Islamism** Nevzat Soguk,2010-10-16 Tensions between the West and the Islamic world have reached an all time high fueled by caricatures and misunderstandings on both sides In contrast as Nevzat Soguk shows actual histories reveal profound connections across Islamic and Western civilizations Moving beyond the usual focus on Wahhabi fundamentalism Soguk highlights the often overlooked non Arab forms of Islam in Turkey and in Indonesia which holds the world s largest population of Muslims He argues that Westerners tend to see only an extremist form of Islam which obscures the political and cultural pluralism supported within majority Islamic countries around the world This book taps into the nexus of tension born of the fear and terror engendered by Wahabi movements on one hand and the promise of a tolerant pluralist Islamic religiosity in Turkey and Indonesia on the other It examines the multiple historical political and religious legacies in Turkey and Indonesia in light of the rapid globalization they are experiencing By focusing on these two countries the author fills a significant void on the diverse role Islam is poised to play in shaping regional and global political futures Original timely and humane this book will be essential reading for all those concerned about repairing Western Islamic relations **Leo Strauss and His Legacy** John Albert Murley,2005-01-01 With over 10 000 entries identifying work of hundreds of Strauss s students and their students students this bibliography is the most indeed the only comprehensive guide to published writing in the tradition of Leo Strauss Murley includes Strauss s own complete bibliography and that of one of his most revered students George Anastaplo Muslims beyond the Arab World

Fallou Ngom, 2016-06-01 *Muslims beyond the Arab World* explores the vibrant tradition of writing African languages using the modified Arabic script Ajami alongside the rise of the Muridiyya Sufi order in Senegal. The book demonstrates how the development of the Ajami literary tradition is entwined with the flourishing of the Muridiyya into one of sub-Saharan Africa's most powerful and dynamic Sufi organizations. It offers a close reading of the rich hagiographic and didactic written, recited, and chanted Ajami texts of the Muridiyya works largely unknown to scholars. The texts describe the life and Sufi odyssey of the order's founder Shaykh Ahmadu Bamba Mbakke (1853-1927), his conflicts with local rulers and Muslim clerics, and the French colonial administration, and the traditions and teachings he championed that permanently shaped the identity and behaviors of his followers. Fallou Ngom evaluates prevailing representations of the Muridiyya movement and offers alternative perspectives. He demonstrates how the Murids used their written, recited, and chanted Ajami materials as an effective mass communication tool in conveying to the masses Bamba's poignant odyssey, doctrine, the virtues he stood for, and cultivated among his followers: self-esteem, self-reliance, strong faith, work ethic, pursuit of excellence, determination, nonviolence, and optimism in the face of adversity. Without the knowledge of the French colonial administration, and many academics, *Muslims beyond the Arab World* argues that this is the source of the resilience, appeal, and expansion of Muridiyya, which has fascinated observers since its inception in 1883. Political Leadership and Charisma Michael

Brecher, 2016-09-23 This book is unique in illuminating and comparing the charismatic role of two political leaders, Jawaharlal Nehru and David Ben-Gurion, along with assessments of many other 20th-century political leaders. Its aim is to enrich our knowledge of an important dimension of global politics: charismatic leadership. The central role of political leaders in shaping the behavior of states has been universally recognized since the political systems of antiquity in East Asia, the Middle East, and Europe. With the massive increase of independent states since the end of World War II, from 55 initial members of the United Nations to more than 200 today, and especially the emergence of awesome weapons of mass destruction, the centrality of political leaders in the survival of the planet has grown exponentially. Both India and Israel have experienced the crucial role of charismatic leaders, Nehru and Ben-Gurion, who dominated their states and societies for a near-identical formative period in their political independence (1947-64 and 1948-63, respectively) as charismatic leaders. Their impact, Brecher shows, extended far beyond their states to both their geographic regions and global politics. **Islamic**

Populism in Indonesia and the Middle East Vedi R. Hadiz, 2016-02-05 In a novel approach to the field of Islamic politics, this provocative new study compares the evolution of Islamic populism in Indonesia, the country with the largest Muslim population in the world, to the Middle East. Utilising approaches from historical sociology and political economy, Vedi R. Hadiz argues that competing strands of Islamic politics can be understood as the product of contemporary struggles over power, material resources, and the result of conflict across a variety of social and historical contexts. Drawing from detailed case studies across the Middle East and Southeast Asia, the book engages with broader theoretical questions about political

change in the context of socio economic transformations and presents an innovative comparative framework to shed new light on the diverse trajectories of Islamic politics in the modern world **Mirror of the Arab World** Sandra Mackey,2008 In this clear concise volume Mackey provides a unique view of the tortured and tortuous Arab region through the lens of Lebanon **The Arab Shakespeare Trilogy** Sulayman Al Bassam,2014-09-25 Sulayman Al Bassam is one of the world s leading contemporary dramatists His adaptations of Shakespeare performed around the world have won many awards and met with widespread acclaim on four continents This volume brings together for the first time three of Al Bassam s adaptations of Shakespearean plays including versions of Hamlet Richard III and Twelfth Night collectively known as The Arab Shakespeare Trilogy The Al Hamlet Summit sees the familiar characters of Hamlet reborn as delegates placed in a conference room in an unnamed modern Arab state on the brink of war Richard III an Arab Tragedy is a contemporary adaptation of Shakespeare s classic reworked and transplanted into the scorching oil rich Islamic world of the Gulf while The Speaker s Progress is a forensic reconstruction of Twelfth Night which transforms into an unequivocal act of defiance towards the state forming a dark satire on the decades of hopelessness and political inertia that fed twenty first century revolts across the Arab region The Arab Shakespeare Trilogy features an editorial introduction by Graham Holderness positioning the plays within the contexts of both modern Shakespearean drama and Arab culture as well as an author s preface by Sulayman Al Bassam detailing the plays history of theatrical reception and outlining his philosophy of Shakespeare adaptation **Politics of the Middle East** Michael G.
