This new field guide uses all of the illustration plates from Raptors of the World with a concise revised text on facing pages to create a conveniently sized lightweight field reference covering all 340 raptor species. Several of the plates have been reworked and repainted for this guide. The book also has an updated colour distribution map for each species. Much of the extensive introductory material has been retained in this guide with the addition of a complete species list containing all subspecies and brief details of their ranges.
