- Suppose you were stranded on a desert island without a calendar or clock. How would you know when a day, a month, or a year had passed? **Using the sun**
- How could you tell what time of year it was? **The weather?**

Gizmo Warm-up

Thousands of years ago, people told time by looking at the sky. You may not think about it, but you probably do this as well. For example, you know a day has passed when the Sun rises, it grows light outside, and then Sun sets again.

In the *Seasons: Earth, Moon, and Sun* Gizmo, you will learn how you can relate the passage of time to different astronomical events.

Drag the **Simulation speed** slider all the way to the left. Click **Play** () and observe the SIMULATION pane.

- What happens? **The earth rotates on its axis**
- Click on the 2D VIEW tab. What do you see? **The sun and the moon in the sky day by day**
- Click on the DAY GRAPH tab. What do you see? **Solar Intensity going up throughout the year**
- Click on the SHADOWS tab. What do you see? **A sundial changing shadows based on the time of day.**

**Activity A: Days, months, and years**Get the Gizmo ready: Click **Reset**. Select the 2D VIEW tab.**Question:** What astronomical events coincide with the passage of a day, month, or year?

- Observe: Click **Play**. Observe how the position of the red dot in the SIMULATION pane relates to the cycle of night and day on the 2D VIEW tab.
What astronomical event causes day and night? **The rotation of the moon around the sun.**

Every time Earth finishes one **rotation** on its **axis**, a complete cycle of day and night occurs. In the SIMULATION pane, Earth's axis is represented by the red line that goes through the center of the planet.

- Describe: Months are another unit of time based on an astronomical event. Click **Reset**, and move the **Simulation speed** slider to the right a quarter of the way. Click **Play**, and observe the movements of Earth and the Moon for one month. (Note: You can use the calendar in the upper right corner of the 2D VIEW tab to determine when a month has passed.)
