Glamour Uk 2015 05 Bak:

Bollywood in Britain Lucia Krämer, 2016-06-02 Bollywood in Britain provides the most extensive survey to date of the various manifestations and facets of the Bollywood phenomenon in Britain. The book analyzes the role of Hindi films in the British film market; it shows how audiences engage with Bollywood cinema and it discusses the ways the image of Bollywood in Britain has been shaped. In contrast to most of the existing books on the subject which tend to approach Bollywood as something that is made by Asians for Asians, the book also focuses on how Bollywood has been adapted for non-Asian Britons. An analysis of Bollywood as an unofficial brand is combined with in-depth readings of texts like film reviews, the TV show *Bollywood Star* 2004 and novels and plays with references to the Bombay film industry. On this basis, *Bollywood in Britain* demonstrates that the presentation of Bollywood for British mainstream culture oscillates between moments of approximation and distancing with a clear dominance of the latter. Despite its alleged transculturality, Bollywood in Britain thus emerges as a phenomenon of difference, distance and Othering.

Tourism and Foreign Direct Investment H. Cristina Jönsson, 2022-03-02 This is the first volume to examine and shed significant light on the issues, challenges and prospects presented by foreign direct investment (FDI) in tourism, a topic of increasing relevance in light of the COVID-19 pandemic and economic consequences. This book addresses the need to examine the TFDI phenomenon considering resilient tourism development approaches and includes discussion on impacts of a rapidly evolving global pandemic on tourism. Recognising that its impact on tourism has only just begun, the book includes early estimates of the damage to the tourism economy and TFDI over 2020 and beyond. It considers how the COVID-19 pandemic may change society, the economy and tourism and how some of the key research needs to understand these changes and contribute to a more sustainable post-pandemic tourism sector. Through a collection of chapters focusing on principles, practices and a diverse range of destination case studies, the book considers TFDI from the economic, social and environmental and regulatory perspectives. Thus, the book will advance understanding of the positive and negative impacts of TFDI as well as how emerging problems and wider implications for local economies and communities can be managed more sustainably while also discussing the transformative opportunities offered by TFDI regarding key economic, social and environmental issues. This will be essential reading for upper-level students and researchers in the field of tourism development.

Heartthrobs Carol Dyhouse, 2017-02-09 From dreams of Prince Charming or dashing military heroes to the lure of dark strangers and vampire lovers, from rock stars and rebels to soulmates, dependable family types or simply good companions, female fantasies about men tell us a great deal about the history of women. In *Heartthrobs*, Carol Dyhouse draws upon literature, cinema and popular romance to show how the changing cultural and economic position of women has shaped their dreams about men. When girls were supposed to be shrinking violets, passionate females risked being seen as unbridled or dangerously out of control. Change came slowly and young women remained trapped in a double bind: you may have needed a husband in order to survive, but you had to avoid

looking like a gold digger Show attraction too openly and you might be judged fast and undesirable Education and wage earning brought independence and a widening of horizons for women These new economic beings showed a sustained appetite for novel reading cinema going and the dancehall They sighed over Rudolph Valentino s screen performances as tango dancer or Arab tribesman and desert lover Women may have been ridiculed for these obsessions but as consumers they had new clout This book reveals changing patterns of desire and looks at men through the eyes of women

Baeckström,2022-02-25 This book examines the world of finance and the role of gender within it It looks at the financial services industry arguably the most powerful and remunerative sector that exists and shows how it was created by men for men The author explains how historically women were excluded how minimal progress has been made and outlines how the sector still needs to change to function effectively in a modern equal opportunities world Addressing gender inequality in financial services is of utmost urgency and importance because of the extent to which it affects women in all stages of life Women s exclusion in financial services is also mirrored by how men have been excluded from parenting through a similar set of societal expectations government legislation and corporate policies The author maintains that to succeed we need to address both financial services and parenting To do so we need regulatory support Because of its power and dominance the financial services industry has the opportunity to lead this change and to champion gender equal practices These practices are economically beneficial to all participants not only female employees and consumers We all need these benefits as we rebuild our economies following the COVID 19 pandemic The book makes an important contribution to the critical and increasing awareness of gender concerns It presents insights drawn from original research and data about gender biases The book is an essential secondary text for a range of university courses including economics finance and accounting business studies and gender related courses as well as MBAs and Executive Education programmes that focus on gender in business It is also a must read for policy makers managers in financial services institutions and any other businesses that seek to attract the growing market of female consumers employees and business leaders *Ageing and new intimacies* Sarah

Milton,2024-03-26 The baby boom generation born between the 1940s and the 1960s is often credited with pioneering new

and creative ways of relating doing intimacy and making families With this cohort now entering mid and later life in Britain they are also said to be revolutionising the experience of ageing Are the romantic practices of this revolutionary cohort breaking with tradition and allowing new ways of understanding and doing ageing and relating to emerge Based on an innovative combination of sensory ethnography in salsa classes and life history interviews this book documents the meanings of desire and romance and new or renewed intimacies among women in mid and later life Beginning with women at a transition point when newly single or newly dating in midlife the chapters look back over life histories to examine prior relationship experiences at different life stages and look forward to hopes for future intimacies In the navigation of romance and new relationships we see the sensory sensual and affective nature of heteronormativity and gendered practices that are informed by memories of the past the imagination of previous generations and class based desires Challenging conventional notions of the baby boomers this book illuminates the intersections of age class and white normativity making important contributions to our understanding of ageing and generation intimacy and gender
