Resources in Education, 1998-07 Rural School Leadership Christian P. Wilkens, Janice DeVore Littlebear, Robert S.

Thompson, 2024-11-25 *Rural School Leadership Lessons from Alaska* is a guide for leaders in rural schools. The book tells stories, provides clear examples, and practical school improvement strategies. The Impact of Teacher Leaders Kimberly T. Strike, Janis C. Fitzsimmons, Debra K. Meyer, 2019-08-13 *The Impact of Teacher Leaders: Case Studies from the Field* is designed to celebrate, spotlight, teach, inspire, and encourage. First and foremost, the authors wish to celebrate the accomplishments and dedication of teacher leaders. Research clearly shows that teachers have the greatest impact on student achievement. It is also evident that teacher leaders are the bridge between their colleagues in the classrooms and administrators and parents. Initiatives can be driven, impaired, or abandoned based on the support and involvement from teacher leaders. Teacher leadership is critical in all schools. For this reason, the authors spotlighted cases from coast to coast in the United States, along with some international examples. In an era when teacher preparation programs have decreased in numbers, statistics are showing that those who successfully complete those programs are not remaining in the field, and veteran teachers are leaving in record numbers. It is important to spotlight the success of teachers through their leadership roles in very different school contexts. Case studies are an important tool in qualitative research as they provide examples of implementation, examples of relationships between theory and practice, allow close examination of people and contextual situations, allow data collection and analysis, and allow for further study of people, groups, events, reasons, and questions. Case studies utilize a variety of sources and use different methods. For the purposes of this companion publication, purposeful selection spotlighted 24 case studies where the authors interviewed teachers to collect and write narratives about their teacher leadership roles, often focusing on a specific leadership experience. All participating teachers were under a teacher contract at the time of the teacher leadership case study experience and were leading at the building or district level.

Go Math! Sta 2016, Grade 6, 2015 *Managing the Adolescent Classroom* Glenda Beamon Crawford, 2004-04-29. Uncover the secrets of teachers who are recognized as outstanding classroom managers. Through fourteen case studies of exemplary teachers, Crawford showcases adolescent classroom management at its best. Teachers can draw from this rich store of individual tips, secrets, and procedures and adapt these management solutions immediately. Along with these variations on classic elements of success, Crawford also provides many new entry points for new and experienced teachers to improve their own management. Reflective chapter questions and discussion prompts make this a productive resource for study groups and mentors as well as classroom teachers. *Managing the Adolescent Classroom* demonstrates how to triangulate great management around three essential factors: Physical (leveraging time, space, and a structured environment), Affective (strategies to promote positive personal and interpersonal development), and Cognitive (use of instructional pace and engagement to motivate behavior and commitment to learning).
