Going Home Barry Upton:

Going Home Barry Upton, 2014-10-19 Ruth is a young Jewish girl growing up in London's East End. Her future is mapped out for her working as a book keeper in old man Schwartz's emporium. Then Frank, a market stallholder in Petticoat Lane, turns her head and changes her life and the lives of four generations. *Going Home* tells the stories of these lives in their own voices. All bear the scars of that chance meeting in 1949 and they must take their own journeys, find their own way home. Some real characters and events which help define the historical setting of the book are included in passing. The places in these pages are real and as I remember them, but their inhabitants bear no resemblance to real people living or dead. While the characters in *Going Home* are not real, in telling their stories, I hope I have given my mother her voice and that wherever she is now, she feels at peace and at home. [The Serpent's Tooth](#) , **In Apple-Blossom Time: A Fairy-Tale to Date**

Clara Louise Burnham, 2019-12-05 In *In Apple Blossom Time: A Fairy Tale to Date* Clara Louise Burnham masterfully interweaves elements of fantasy and contemporary realism, creating a narrative that confronts the complexities of love, social expectation, and personal growth in the early 20th century. Set against the backdrop of blossoming gardens and idyllic landscapes, Burnham's lyrical prose evokes a sense of enchantment that is both whimsical and profound. The book employs a fairy tale framework while delving into the intricacies of human emotion, making it a poignant exploration of romantic ideals and the transformative power of nature. Clara Louise Burnham, a prominent figure in American literature during her time, often focused on themes of sentimentality and morality in her works. Her own experiences as a woman navigating societal norms likely informed her depiction of spousal roles and romantic entanglements, providing a lens through which she could address the evolving roles of women in her society. Her familiarity with fairy tale motifs allowed her to engage readers' imaginations while addressing pressing social issues. This enchanting narrative deserves a place on the shelves of both avid readers of fairy tales and those interested in women's literature. Burnham's delicate balance of charm and critique offers a timeless reflection on the nature of love and belonging, inviting contemporary readers to explore enduring questions about happiness and fulfillment in a world often overshadowed by conflict. **Correspondence of Major General Emory Upton,**

Vol. 2, 1875-1881 Salvatore Cilella, 2024-01-12 Emory Upton (1839-1881) was thrust into the Civil War immediately upon graduation from the United States Military Academy at West Point in May of 1861. He was wounded three times during the war. He participated in nearly every major battle in the Eastern Theater, including Fredericksburg, Gettysburg, and Spotsylvania, where he led a prominent attack on entrenched Confederate positions, a signal of Upton's brilliance as an officer and of his military creativity that foreshadowed his later work in revising the Army's tactics. Upton was mustered out of service in 1866 and later named commandant of cadets at West Point, a position that carved a path for Upton to focus more on Army tactics and reforms. Until now, the only lenses through which scholars could study Upton were two biographies published nearly a century apart but practically identical in scope and treatment of Upton. The two-volume *Correspondence of Major General*

Emory Upton follows Upton through his enrollment at West Point to his extensive Army activities following the Civil War and contains the bulk of Emory Upton's wartime correspondence. Volume two collects Upton's foreign correspondence and observations on military tactics and Army reform. At the behest of U.S. Army Commanding General William T. Sherman, Upton was sent on a tour to study the armies of Asia and Europe and more specifically the German army after conclusion of the Franco-Prussian War. This tour resulted in the publication of his monumental *The Armies of Europe and Asia* which warned that the U.S. Army was woefully below the standards of European nations and between Upton's death in 1881 and the turn of the twentieth century military policy was fiercely debated in both the military and popular press. Upton's ideas on reform were often central to the arguments and his letters and writings provoked a wide range of discussion over military and inevitably civilian issues. These selected letters and reports expertly annotated and gathered from repositories across the country present a more complex human Emory Upton. He is both the clean pure and spotless individual of Michie's biographies and the ambitious yet flawed Army officer obsessed with his career. These volumes explore his trials and frustrations as well as his triumphs. Salvatore G. Cilella, now retired, was president of the Atlanta Historical Society. He is the author of *Upton's Regulars: The 121st New York Infantry in the American Civil War and Fund Raising for Small Museums in Good Times and Bad*. **In Apple-blossom Time** Clara Louise Burnham, 1919 *Sight and Sound*, 1998

The Turning Andrew E. Hunt, 1999-07 The anti Vietnam War movement in the United States is perhaps best remembered for its young counterculture student protesters However the Vietnam War was the first conflict in American history in which a substantial number of military personnel actively protested the war while it was in progress In *The Turning* Andrew Hunt reclaims the history of the Vietnam Veterans Against the War VVAW an organization that transformed the antiwar movement by placing Vietnam veterans in the forefront of the nationwide struggle to end the war Misunderstood by both authorities and radicals alike VVAW members were mostly young men who had served in Vietnam and returned profoundly disillusioned with the rationale for the war and with American conduct in Southeast Asia Angry impassioned and uncompromisingly militant the VVAW that Hunt chronicles in this first history of the organization posed a

formidable threat to America's Vietnam policy and further contributed to the sense that the nation was under siege from within. Based on extensive interviews and in-depth primary research including recently declassified government files, *The Turning* is a vivid history of the men who risked censures, stigma, even imprisonment for a cause they believed to be an extended tour of duty. **The Churchman**, 1886 **Books In Print 2004-2005** Ed Bowker, Staff, Staff Bowker, Ed, 2004

Fletch and the Man Who Gregory McDonald, 2018-10-16 Full of sharp-witted commentary and rich details, *Fletch and the Man Who* takes a satirical look behind the scenes and looks inside the world of American politics. Arriving on scene somewhere in middle America, newly hired on as the press representative for Governor Caxton Wheeler's presidential campaign, Fletch is unsure of what exactly he's supposed to be doing there. Luckily, the man who called him up for the job is his old war buddy, Walsh, Wheeler's aide and son to the governor. But just as Walsh is filling him in on the need to know informational tidbits, a woman is found dead outside the very hotel they occupy, and she's not the first or the last. Struggling to corral the increasingly pushy press, keep the votes coming in, and do his own sleuthing, Fletch is up against the clock to solve this mystery before the killer strikes again. Going Dirty David Mark, 2007-03-09 *Going Dirty* is a history of negative campaigning in American politics and an examination of how candidates and political consultants have employed this often controversial technique. The book includes case studies on notable races throughout the television era in which new negative campaign strategies were introduced or existing tactics were refined and amplified upon. Strategies have included labeling opponents from non-traditional political backgrounds as dumb or lightweight, an approach that got upended when a veteran actor and rookie candidate named Ronald Reagan won the California governorship in 1966, setting him on a path to the White House. The negative tone of campaigns has also been ratcheted up dramatically since the terrorist attacks of September 11, 2001. Campaign commercials now routinely run pictures of international villains and suggest, sometimes overtly, at other times more subtly, that political opponents are less than resolute in prosecuting the war on terror. The book also outlines a series of races in which negative campaigning has backfired because the charges were not credible or the candidate on the attack did not understand the political sentiments of the local electorate they were trying to persuade. The effect of newer technologies on negative campaigning is also examined, including blogs and Web video in addition to tried and true methods like direct mail.
