Integrating Politics And Administration For An Agonistic Policy Model:

Agonistic Articulations in the 'Creative' City Friederike Landau, 2019-03-07 This book offers an empirically grounded account of the emergence and political activities of a new collective actor in Berlin's art field. Investigating the organizational and representative practices of Koalition der Freien Szene (Coalition of the Independent Scene), a trans-disciplinary action platform assembling a wide variety of cultural producers in Berlin, the author unpacks the political organization of one of the most compelling contemporary art scenes or creative cities worldwide, analysing both its concrete policy success and the means by which it seeks to challenge and rearticulate the meaning of Berlin as a creative city from the producers' point of view. The book thus opens new opportunities for long-term transformations of the cultural political field. Theoretically sophisticated and based on empirical material including interviews with spokespeople and cultural administrators, *Agonistic Articulations in the Creative City* presents a unique conceptualization of new modes of political collectivization, representation and legitimacy that imagine new avenues of political engagement at a time when political institutions, parties and regimes of representation are in crisis. As such, it will appeal to scholars of sociology, political science and urban studies with interests in social movements and cultural activism.

The Agonistic City? Li Pernegger, 2020-11-26 This book combines an innovative approach to the investigation of state-society relations with a rich account of Johannesburg's contested governance. Its depth and insight will be valued by scholars of Urban Studies, Politics and Planning. Glyn Williams, University of Sheffield. Writing with both intellectual and practical conviction, Li Pernegger's insights into the deeply political and at times violent struggles over services in post-apartheid Johannesburg are sensitive and nuanced, not least because of her command of how government works at the city scale. Susan Parnell, University of Bristol.

The Integrated Approach to Trauma Care R. Goris, O. Trentz, 2012-12-06 This book concentrates on problems generated by acute care in severely traumatized patients during the first 24 hours after injury. During this hectic period, highly complicated problems have to be solved at the site of the accident, during transport to hospital and in hospital. Multiple medical and paramedical disciplines are involved in providing care to the severely injured. This book endeavors to present a problem-oriented approach to the diagnostic, therapeutic and organizational aspects that may be encountered.

Handbook on Policy, Process and Governing H.K. Colebatch, 2018-12-28 This Handbook covers the accounts by practitioners and observers of the ways in which policy is formed around problems, how these problems are recognized and understood, and how diverse participants come to be involved in addressing them. H.K. Colebatch and Robert Hoppe draw together a range of original contributions from experts in the field to illuminate the ways in which policies are formed and how they shape the process of governing.

Australian Public Policy Chris Miller, Lionel Orchard, 2016-02-17 Australian public policy engages with the values and dilemmas of progressive public policy in Australia, bringing together leading authors to explore a wide range of issues which challenge and extend current thinking about Australian public policy.

Handbook of Decision Making Goktug

Morcol,2006-11-01 Handbook of Decision Making includes the wisdom of the long theological and philosophical traditions of human society as well as a systematic exploration of the implications of contemporary evolutionary theories Common patterns in decision making styles are identified as well as the common variations that different contexts may generate The text covers the multiplicity of mainstream decision making styles such as cost benefit analysis and linear programming It also explains alternative and emerging methods such as geographic information systems Q methodology and narrative policy analysis Practical applications are discussed using decision making practices in budgeting public administration and governance drug trafficking and information systems

Global Poverty Law Moniza Rizzini Ansari,2024-09-30 This book demonstrates how the various legal efforts employed to eradicate global urban poverty also play a significant role in shaping it Urban poverty has been widely examined as a social problem that requires attention and social commitment Law is often seen as both an important contributor to the problem as well as a source of crucial tools to overcome it In spite of this however poverty is surprisingly disregarded within legal scholarship This book counters this by drawing on legal theory legal history and legal geography to inquire how urban poverty is made visible and invisible as a problem across global cities More specifically it investigates the mechanisms and networks through which global urban poverty has been conceptually and materially shaped in a way that fits the remit of global corporate philanthropy and the development aid agenda By following law s circuitous interactions with poverty knowledge and antipoverty interventions the book demonstrates how it plays a historical role in making poverty seen known and remedied As a result the book argues law consolidates a stable image of poverty as an essential problem to be uniformly found worldwide and so reasonably fixable with the appropriate legal reforms Taking poverty to be a fundamental manifestation of social injustice the book thus raises key questions about the role of law in the achievement of social justice This innovative and insightful account of the relationship between law and poverty will appeal to scholars in critical and socio legal studies as well as others working in poverty studies urban studies development studies geography sociology and social policy
