□□□□□□iPhone/iPad□□□□□□ □□ □□,2013-01-29 *Hospital End User Computing in Japan How to Use FileMaker Pro with Hospital Information Systems*

Shunji Wakamiya, Kazunobu Yamauchi, Hiroyuki Yoshihara, 2012-11-11 Organizational computing has been critical to the development of medical informatics. Many end user applications EUAs such as FileMaker Pro have been applied to support medical staff work at hospitals in Japan recently. This e book describes how to use FileMaker Pro with hospital information systems HISs. EUAs are described with relation to tools used for development, their functions, coordination methods with HIS, how to use them, their effectiveness, and their problems. While not all of the applications fulfill complete requirements for RASIS and are not established, they give us new perspectives regarding HISs. This e book also provides readers with various suggestions on how to use HISs more effectively, how to coordinate EUAs with HIS, how to manage end user applications, and how to achieve clinical effectiveness with EUAs. This volume is specialized in the use of FileMaker Pro at hospitals and all of the developers of FileMaker Pro systems. The respective authors are medical doctors at various departments of hospitals in contrast to conventional developers who are usually unfamiliar with medical information requirements. These two features make this e book more clinically significant and facilitate end users to handle HISs more easily.

**Mobile Technologies in Educational Organizations** Forkosh Baruch, Alona, Meishar Tal, Hagit, 2019-03-15 The use of mobile technology for learning in organizations and the workplace is spreading widely with the development of infrastructure and devices that allow ubiquitous learning and training. Since learning, teaching, and training in a mobile saturated environment is a developing field, implications for a combined overview of these topics may be beneficial both for research and practice in the broader view of a user's lifespan. Mobile Technologies in Educational Organizations is a collection of innovative research on the methods and applications of mobile technologies in learning and training and explores best practices of mobile learning in organizations and the workplace. While highlighting topics including ethics, informal education, and virtual reality, this book is ideally designed for teachers, administrators, principals, higher education professionals, instructional designers, curriculum developers, managers, researchers, and students.
