Lennox 14w81 Manual Programmable Thermostat:

Installation Manual for the Programmable "weekender" Thermostat Sears, Roebuck and Company,1987 Persuasive Global Positioning System-controlled Thermostat System Manu Gupta (S. M.),2008 Using 10 weeks of data from a couple living in an instrumented home we report on the potential of context aware power management for energy saving We identify an opportunity to save on heating and cooling using a system we propose for just in time heating and cooling based on travel distance computation from GPS enabled mobile phones Analyzing GPS travel data from eight participants 8 12 weeks each and heating and cooling characteristics from 4 homes we report results of running computer simulations estimating potential energy savings of a system that could augment existing manual and programmable thermostats Although manual and programmable thermostats can save large amounts of energy when used properly studies have shown that well over 40% of U S homes may not use energy saving setbacks when homes are unoccupied We estimate that using a GPS enabled thermostat might lead to savings of as much as 7% for some households that do not regularly use the setback features afforded by manual and setback thermostats without requiring any change in behavior For some end users providing one extra bit of information each day could lead to savings as high as 9% and additional persuasive strategies could save up to 15% We then report on the implementation of a prototype system and pilot testing of the user interface We propose five design guidelines for a just in time heating and cooling system *Lennox Service Literature* Lennox Industries,1995
