Making Sense of Land Law April Stroud, 2018-08-14 Taking a fresh and innovative approach to the subject Making Sense of Land Law is an essential textbook designed to help those coming to the subject for the first time Practical scenarios and diagrams are feature throughout making the subject come alive The Q A style of debate in the book is unique and takes the reader through the issues step by step This book is suitable as a core textbook but also as a revision guide or for self study This is an ideal text for a land law module at first or second year level as part of an LLB degree Also useful for undergraduates of other related disciplines in which an awareness of land and property law is required in an easy to digest and accessible manner such as planning estate management and business property and other built environment courses New to this Edition Fully revised and updated The latest on the law of easements Discussion of the development in constructive and resulting trusts     *The New Law of Land Registration* Elizabeth Cooke, 2003-09-17 This book is an examination of the law of land registration in England and Wales in the light of the Land Registration Act 2002 and in particular at the way land registration is influenced by and in turn influences the evolution of land law as a whole It examines the legal problems that have arisen in connection with land registration and considers the effect of the 2002 statute drawing extensively upon the law in other jurisdictions and considering possibilities for future development This is a book which will be essential reading for students their teachers and practitioners who will have to grapple with the intricacies of the new Act when it comes into force     *Land Law* Ben Hopkins McFarlane (Nicholas) Nield, Sarah), 2024     **Land Law** Kevin Gray, Susan Francis Gray, 2011-07-14 This seventh edition covers everything from the legal definition of land to the essential elements in a lease or tenancy and the function of covenants in the planning of land use     *Aboriginal Title and Indigenous Peoples* Louis A. Knafla, Haijo Westra, 2011-01-01 Delgamuukw Mabo Ngati Apa Recent cases have created a framework for litigating Aboriginal title in Canada Australia and New Zealand The distinguished group of scholars whose work is showcased here however shows that our understanding of where the concept of Aboriginal title came from and where it may be going can also be enhanced by exploring legal developments in these former British colonies in a comparative multidisciplinary framework This path breaking book offers a perspective on Aboriginal title that extends beyond national borders to consider similar developments in common law countries     **Research Handbook on Law and Emotion** Susan A. Bandes, Jody L. Madeira, Kathryn D. Temple, Emily Kidd White, 2021-04-30 This illuminating Research Handbook analyses the role that emotions play and ought to play in legal reasoning and practice rejecting the simplistic distinction between reason and emotion     **A New Land Law** Peter Sparkes, 2003-08-05 Peter Sparkes path breaking text on land law has been rewritten with two aims in mind to incorporate the seismic changes introduced by the Land Registration Act 2002 along with commonholds the explosion of human rights jurisprudence and the unrelenting advance of judicial exposition and to accommodate the author's developing thinking on the structural aspects of the subject The book opens with a series of

shorter chapters each exploring a fundamental building block registration houses flats and commonholds land ownership and its transactional powers social controls balanced by human rights to property fragmentation by time the doctrine of estates divisions of ownership and proprietary rights In terms of substantive chapters the book opens with discussion of the new transfer system paper based transfer alongside the evolution towards electronic conveyancing and the consequent changes to the proof of registered titles and to the registration curtain The new approach to adverse possession against registered titles has called for extended discussion as has the authoritative elucidation of the concept of adverse possession in Pye In terms of proprietary interests the fundamentals are seen as rights to transfer beneficial interests under trusts which are overreachable burdens which are enduring leases money charges such as mortgages which are redeemable and the obligations enforceable within the neighbour principle easements covenants and positive covenants being treated as a semi coherent whole An attempt has been made to assist students by moving some of the more arcane learning later into the book or into separate chapters where these matters might be more readily ignored by a candidate concerned primarily to prepare for an examination A massive amount of research and scholarship has gone into the book with impressive citation of cases articles and case notes and of other text books This newcomer on the scene is a considerable addition to the ranks of serious text books on land law and the author is to be congratulated The New Law Journal The scope of this work is ambitious it is a bold attempt to take the study of land law forward much more than a basic land law text book it would be a pleasure to be able to teach a course requiring students to cover the substance or the bulk of it whether in one or more modules a difficult blend of background and history massive referencing discussion of statute and case law all wrapped up in a text that is not too difficult to absorb The Law Teacher A most interesting and ground breaking book Michael Cardwell University of Leeds At last a brilliant land law book I think the approach is marvellous and will strongly recommend it to my students Keith Gompertz University of Central England takes a more modern approach to the area I am very impressed with the style layout and format It will be a good teaching tool and I am looking forward to using it Alison Dunn Newcastle Law School not baffling in the way land law texts tend to be Helen Taylor University of Teesside Excellent Professor Edward Burn City University

credit institutions Part 2 Money and Its Problems investigates the social political and cultural problems of money including money lending theft counterfeiting and corruption Part 3 Money and Oil Economy assesses the impact of the oil industry on the Nigerian state and examines both the positive and negative effects of oil money on Yoruba economy society and spending Concluding chapters detail efforts to arrest the crisis that followed the economic slump after the oil boom and led to the adoption of the Structural Adjustment Program and also evaluate the effects of currency devaluation on personal and communal responsibilities and social payment Culture Politics and Money Among the Yoruba is timely in view of ongoing political and economic changes in Africa It will be of interest to economists sociologists and African studies specialists Toyin Falola a leading historian of Nigeria and a distinguished Africanist is professor of history at the University of Texas at Austin His books include Decolonization and Development Planning and Violence in Nigeria He is at the moment completing a study on the history of Nigeria Akanmu Adebayo is a professor of history at Kennesaw State University in Kennesaw Georgia His latest book is Embattled Federalism A History of Revenue Allocation in Nigeria The Nation's Largest Landlord James R. Skillen, 2009-09-02 It is the largest landholder in America overseeing nearly an eighth of the country 258 million acres located almost exclusively west of the Mississippi River with even twice as much below the surface Its domain embraces wildlife and wilderness timber range and minerals and for over 60 years the Bureau of Land Management has been an agency in search of a mission This is the first comprehensive analytical history of the BLM and its struggle to find direction James Skillen traces the bureau's course over three periods its formation in 1946 and early focus on livestock and mines its 1970s role as mediator between commerce and conservation and its experience of political gridlock since 1981 when it faced a powerful antienvironmental backlash Focusing on events that have shaped the BLM's overall mission organization and culture he takes up issues ranging from the National Environmental Policy Act to the Sagebrush Rebellion in order to paint a broad picture of the agency's changing role in the American West Focusing on the vast array of lands and resources that the BLM manages he explores the complex and at times contradictory ways that Americans have valued nature Skillen shows that although there have been fleeting moments of consensus over the purpose of national forests and parks there has never been any such consensus over the federal purpose of the public lands overseen by the BLM Highlighting the perennial ambiguities shadowing the BLM's domain and mission Skillen exposes the confusion sown by conflicting congressional statutes conflicting political agendas and the perennial absence of public support He also shows that while there is room for improvement in federal land management the criteria by which that improvement is measured change significantly over time In the face of such ambiguity political social and economic Skillen argues that the agency's history of limited political power and uncertain mission has ironically better prepared it to cope with the more chaotic climate of federal land management in the twenty first century Indeed operating in an increasingly crowded physical and political landscape it seems clear that the BLM's mission will continue to be marked by ambiguity For historians students public administrators or anyone who cares

about American lands Skillen offers a cautionary tale for those still searching for a final solution to federal land and resource conflicts

**Knowledge as Property** Rajshree Chandra, 2012-06-13 Intellectual Property Rights IPRs the idea of knowledge as property and its role in human society is being increasingly discussed across nations and borders Involving legal political cultural and ethical issues debates on IPRs continue to be complex and wide ranging This book analyses the basic assumptions and premises of the notion of intellectual property as a right It goes on to show how IPRs prevent those who do not own it from accessing and exercising their own diverse rights Thus in a way IPRs violate the very idea of individual autonomy on which it bases its claims Highlighting the inherent propensity of IPRs to conflict with other rights of other peoples this volume examines three important rights health rights indigenous peoples knowledge rights and farmers rights Do IPRs derive any legitimacy from its ability to support or conjoin with these rights Do IPRs fit within a framework of rights which unites welfare well being and equal access to advantage and autonomy These are questions which arise out of the varied contestations that have emerged in the face of IPRs and which have been probed in this book The analyses also moves beyond to explore some of the broader challenges that liberal theory of rights faces from collective claims to knowledge rights and practices

Sight Unseen Andrew Menard, 2018-09-01 John C Fr mont was the most celebrated explorer of his era In 1842 on the first of five expeditions he would lead to the Far West Fr mont and a small party of men journeyed up the Kansas and Platte Rivers to the Wind River Range in Wyoming At the time virtually this entire region was known as the Great Desert and many Americans viewed it and the Rocky Mountains beyond as natural barriers to the United States After Congress published Fr mont s official report of the expedition however few doubted the nation should expand to the Pacific The first in depth study of this remarkable report Sight Unseen argues that Fr mont used both a radical form of art and an imaginary map to create an aesthetic desire for expansion He not only redefined the Great Desert as a novel and complex environment but on a summit of the Wind River Range he envisioned the Continental Divide as a feature that would unify rather than impede a larger nation In addition to provoking the great migration to Oregon and providing an aesthetic justification for the National Park system Fr mont s report profoundly altered American views of geography progress and the need for a

transcontinental railroad By helping to shape the very notion of Manifest Destiny the report became one of the most important documents in the history of American landscape **The Royal Prerogative and the Learning of the Inns of Court** Margaret McGlynn,2004-12-20 Margaret McGlynn examines legal education at the Inns of Court in the late fifteenth early sixteenth century Catalog of Copyright Entries. Everyday Utopias Davina Cooper,2014-02-03 Everyday utopias enact conventional activities in unusual ways Instead of dreaming about a better world participants seek to create it As such their activities provide vibrant and stimulating contexts for considering the terms of social life of how we live together and are governed Weaving conceptual theorizing together with social analysis Davina Cooper examines utopian projects as seemingly diverse as a feminist bathhouse state equality initiatives community trading networks and a democratic school where students and staff collaborate in governing She draws from firsthand observations and interviews with participants to argue that utopian projects have the potential to revitalize progressive politics through the ways their innovative practices incite us to rethink mainstream concepts including property markets care touch and equality This is no straightforward story of success however but instead a tale of the challenges concepts face as they move between being imagined actualized hoped for and struggled over As dreaming drives new practices and practices drive new dreams everyday utopias reveal how hard work feeling ethical dilemmas and sometimes failure bring concepts to life Land Law and Policy in Papua New Guinea John T.
