Its aim is to foster role development, the opportunity to work at an advanced level of practice. Accounting studies develop technical skills associated with topics and responding to defined scenarios but provide very little guidance on what to recognize and approaching the broad problems or challenges under conditions of uncertainty. It is a double first because it provides the managerial accountant's compass as a general purpose analytical framework for managerial accounting independent of any selected theory and method. The metaphor of a compass creates a mental schema for its four points named: 1. goals and principles, 2. boundaries and constraints, 3. methods and models, and 4.
