Judge Wisdom's substantial legal contributions and political work at a critical time in the history of the South. In 1957 President Eisenhower appointed Wisdom to the Fifth Circuit which included some of the most deeply segregated southern states: Alabama, Florida, Georgia, Louisiana, Mississippi, and Texas. In the tumultuous two decades following its decision in *Brown v Board of Education*, the Supreme Court issued only a few civil rights decisions preferring instead to affirm Fifth Circuit Court opinions or let them stand without hearing an appeal. Judge Wisdom therefore authored many of the decisions that transformed the South and broke down barriers of all kinds for African Americans, including the desegregation of public schools. In preparing this first full-length biography of Judge Wisdom, Friedman had unrestricted access to Wisdom's voluminous repository of personal and professional papers. In addition, he draws on personal interviews with law clerks who served under Judge Wisdom, resulting in a unique behind-the-scenes account of some of the nation's most important legal decisions: the admission of the first black student to the University of Mississippi, the initiation of contempt proceedings against Mississippi Governor Ross Barnett, and the destruction of obstacles that had previously kept black Americans from voting. Friedman also explores Wisdom's political life prior to joining the federal bench, including his pivotal role in resurrecting the Louisiana Republican Party and in securing the Republican presidential nomination for Eisenhower. A compelling account of how a child of privilege from one of America's most socially and racially stratified cities came to serve as the driving force behind the legal effort to end segregation. *Champion of Civil Rights* offers judicial biography at its best.

Car and Driver, 1975 **Handbook for American Catholic Hymnals** J. Vincent Higginson, 1976 *Willing's Press Guide and Advertisers' Directory and Handbook*, 1999 *Boating*, 1959-01 *Planned Change Theories for Nursing* Constance Rimmer Tiffany, Louette R. Johnson Lutjens, 1998. In a groundbreaking publication, Constance Rimmer Tiffany and Louette R. Johnson Lutjens present a foundation for nurses' understanding of planned change. *Planned Change Theories for Nursing* contains overviews of three widely accepted change theories and a new systems-oriented planned change theory, and shows the implications of these theories for nursing practice. The first section of this book offers a thoughtful overview of the issues involved in the use of planned change theories, beginning with the rationale for studying planned change theories and important points to consider in choosing among them. The authors then explore the role of power in change and discuss moral and ethical questions involved in planned change. The final chapter in this section addresses the diagnostic process, innovations as solutions, and the evaluation of planned change. Chapter 9 serves as a transition in which the authors reflect on the implications of planned change in a representative nursing model, the well-known Roy Adaptation Model. This chapter also provides a nursing orientation for Part II, in which the authors examine in turn Lewin's micro-theories, Bennis, Benne, and Chin's planned change writings, the Rogers Diffusion Model, and Bhola's Configurations Model. For each of these theories or models, the authors present an overview, an analysis and critique, and a discussion entitled "Altering the Peg" in which the theories are individually viewed in light of the key concepts in the Roy Adaptation Model. The book concludes with a

discussion of the theoretical underpinnings for carrying out planned change research and incorporating research findings in nursing practice In addition the appendixes provide a wealth of source information for the theories discussed
