Measures Of Tax Compliance Outcomes A Practical Guide:

Measures of Tax Compliance Outcomes A Practical Guide OECD,2014-10-24 This report provides an overview of strategic compliance approaches for measuring tax compliance outcomes and the effectiveness of compliance activities designed to prevent non compliance **Measures of tax compliance outcomes : a practical guide** ,2014 Tax Administration 2015 Comparative Information on OECD and Other Advanced and Emerging Economies OECD,2015-08-11 Tax Administration 2015 is a comprehensive survey of tax administration systems practices and performance across 56 advanced and emerging economies including all OECD EU and G20 members Compliance Risk Management: Developing Compliance Improvement Plans John Brondolo,Mr. John D Brondolo,Annette Chooi,Trevor Schloss,Anthony Siouclis,2022-03-18 All tax administrations seek to maximize the overall level of compliance with tax laws Compliance improvement plans CIPs are a valuable tool for increasing taxpayers compliance and boosting tax revenue This note is intended to help tax administrations develop a CIP by providing guidance on the following issues 1 how to identify and rate compliance risks 2 how to treat risks to achieve the best possible outcome and 3 how to measure the impacts that treatments have had on compliance outcomes **Revenue Administration Handbook** Raúl Félix Junquera-Varela,Cristian Óliver Lucas-Mas,2024-03-20 Revenue Administration Handbook provides a comprehensive overview of the structure and management of tax and customs administrations covering topics such as tax policy design considerations that impact tax administration institutional setup and strategic planning analytical capacities and maturity models core business processes and tax sanctions It also presents pioneering work in the field of digital transformation and how to build data science capabilities including a roadmap for policy makers and tax officials on how to incorporate and manage disruptive technologies such as machine learning into building modern revenue administrations while taking into account their respective maturity levels This practical manual provides examples from real life World Bank projects so that policy makers tax officials information technology experts and information and communication technology providers can better understand the needs of revenue administrations to design and implement the most appropriate technology solutions This reference work is intended to serve as a tool to facilitate the progress and modernization of tax and customs administrations worldwide and to reach not only tax experts and policy makers but also other government officials businesses and academic communities as well as the larger public since all are relevant stakeholders with an active role in day to day revenue administration operations This is a very timely and useful reference for tax practitioners and stakeholders coming at a time when tax administrators continue to grapple with the challenge of how to accelerate the modernization of technology systems to remain effective in a rapidly advancing and technologydriven business environment MOSES WASIKE Senior financial management specialist World Bank This is an impressive piece of work that pulls together many different strains on tax administration JEFFREY OWENS Director Global Tax Policy Center Vienna University Applying several technologies

discussed in this handbook in an innovative manner will definitely help leapfrog countries to pursue a digital transformation agenda especially in the areas of efficiency productivity and citizen satisfaction Cooperative Compliance Jeffrey Owens, Jonathan Leigh Pemberton, 2021-08-18 National taxation authorities around the world are rapidly improving international cooperation given the unprecedented triple impact of persistent revelations of large scale corporate tax avoidance the ever increasing intricacies of digital cross border transactions and the unprecedented revenue deficits engendered by the COVID 19 pandemic There is also a growing recognition that improving tax compliance needs to be reconciled with a legitimate desire on the part of businesses to have some certainty about their taxes Cooperative compliance is one way to achieve that This first analysis of the details of cooperative compliance programmes currently in operation describes tax control frameworks suggests practical examples to assist practitioners in tax administrations and the private sector and provides multiple perspectives on the design and legitimacy of such programmes Drawing on detailed information contributed by tax practitioners and academics from a wide range of jurisdictions worldwide the book identifies and explains certain crucial elements of successful programmes the criteria for access to cooperative compliance e g is the programme voluntary or mandatory Is there a financial threshold Will the criteria be publicly available model legislation that can facilitate the operation of such programmes statutory provisions administrative rules and procedures etc the foundations for an international agreement on an audit assurance standard for tax control frameworks including the role of the Organisation for Economic Co operation and Development OECD the European Union EU and other international organizations how to develop a methodology to measure the cost and benefits of cooperative compliance programmes detailed case studies of existing compliance programmes in Australia Austria China Germany Italy Poland and Russia and how to communicate a cooperative compliance programme to obtain trust from society The analysis draws on two years of work led by WU Global Tax Policy Center GTPC at Vienna University of Economics and Business in cooperation with the International Chamber of Commerce ICC and the Commonwealth Association of Tax Administrators CATA The project brought together over two hundred people from 25 countries including public officials businesses and academics Tax certainty and predictability are key components for providing a tax environment that is conducive to cross border trade and investment and in the long term it is in the interest of both governments and businesses to minimize tax uncertainty as much as possible This truly helpful book promises to pave the way to an internationally effective tax framework that will be welcomed by taxation authorities and practitioners worldwide Taxation in the Digital Era Åsa Hansson, Joakim Wernberg, 2025-09-30 This open access edited volume discusses the impact of digitalization on taxation using the Swedish welfare state model as a lens through which to examine the disruptive effect of new technologies on traditional tax models Taking a multidisciplinary approach it integrates perspectives from economics law audit and public policy to shed light on contemporary challenges in taxation With Sweden as a central case study the chapters in this book address broader concerns surrounding the impact of digital

transformation on how states calculate and enforce tax as well as the role of international coordination in reforming tax policy The book covers many important topics such as financing public welfare international attempts to combat issues concerning multinationals and consumption taxation legitimacy and democratic implications as well as how digitalization impacts firms and tax authorities tax administration The effects of AI automation and remote work are all considered as well as how greater labor mobility is decreasing the emphasis on a geographical nexus for taxability and creating a need for urgent tax reform Providing a diverse set of theoretical and policy considerations this book will be essential reading for scholars students and policymakers working in the spheres of tax law the welfare state and public economics Justice, Equality and Tax Law Nevla Čičin-Šain, Mario Riedl, 2022-10-05 An in depth analysis of the specific aspects of justice equality and tax law Justice Equality and Tax Law is a topic that is both old and new at the same time Even if the society changes the demands that tax needs to be just and equal seem to be immutable What changes of course is the perception of the content of those demands International taxation post BEPS has been fraught with new challenges that warranted urgent responses These challenges were mainly provoked by the unprecedented rise of the digital economy which truly marked a change in the way business is conducted how value is created and how goods and services are produced and consumed Digitalization in turn had repercussions on all aspects of taxation direct taxation indirect taxation and even tax procedures For instance the quest for more justice and equality in profit taxes was the reason why in October 2021 a historical deal based on a two pillar solution to address the tax challenges arising from the digitalization of the economy was negotiated within the OECD G20 Inclusive Framework on Base Erosion and Profit Shifting and agreed upon by 137 member countries It was also the motive behind the shift from a typical vendor collection model to an intermediary collection model supported by centralized registration points in indirect taxes notably the VAT GST Abundant data from the European Union or the OECD signaled an ever increasing gap between expected VAT revenues and VAT actually collected making it obvious that the classical system of VAT GST collection was unable to respond to challenges posed by the digital economy Therefore new solutions based on the participation of digital platforms as intermediaries had been introduced Finally new technologies such as blockchain paved new avenues in enhancing tax compliance In this context this volume entitled Justice Equality and Tax Law contains not only a selection of the best master s theses of the full time LL M programme in 2021 2022 but also represents an in depth analysis of various aspects of this evergreen topic **Compliance** Will Rollason, Eric Hirsch, 2023-12-08 Exploring compliance from an anthropological perspective this book offers a varied and international selection of chapters covering taxation corporate governance medicine development carbon offsetting irregular migration and the building trade Compliance emerges as more than the opposite of resistance instead it appears as a valuable heuristic approach for understanding collective life as a means by which actors strive to accommodate themselves to others This perspective transcends conventional distinctions between power and resistance and offers to open up new avenues of anthropological

enquiry **A Comparative Analysis of Tax Administration in Asia and the Pacific** Asian Development Bank, 2016-09-01

This comparative analysis report the second in a series is part of ADB's regional research and development project on tax administration that analyzes the administrative frameworks functions and performance of 21 economies in Asia and the Pacific. The initial version of this report was published in 2014. The primary objective of the series is to motivate governments and revenue officials by sharing knowledge of important developments and trends in tax administration practice and performance and to identify opportunities to enhance the operation of their tax systems.
